

length of Fabric
for a
Frock or Sumptuous Wrap

When a time a clever woman decided
to give a little "different" style
to her mother who liked the
style from her favorite fashion
Fabric Section is brimming over
with a gain of the new fabrics. Special
attractive wraps.

A Blouse
With Russian Embroideries
THE most delectable Blouse
we've ever had create interest
in the Blouse Section. Russian
embroidered modes—Russian, Oriental,
Egyptian—all indicate a
woman's love for gypsy color
and they harmonize so beautifully
with suit tones for winter that
their gift is certain to meet with
approval. Of course, there are
plenty of white blouses, too.

Frock for Her
Dance 'Neath the Midnight
ING Frocks these evening styles! They
fall in supple folds of velvet in
Laurin green, rose or gold. And
the delicate lace and Canton satin
and, sophisticated styles suggest
the dinner or restaurant fete.
Frock? One for party affairs!

Why Not GIVE
Artistic Silverware?

Such enchantingly
things as Sandwich Trivets,
Sweetmeat Trivets,
Bonbon Baskets, Bread
Butter Plates and the like—
woman in the world could
set the allure of such articles.

Why Not GIVE
A Vivid Pillow?
A BIT of comfort and color
when you put a pretty
Pillow there. Immense
color combinations can
be achieved by using
—to say nothing of the
fort. Gift Pillows have
every conceivable shape
and color. Shredded, round
with French flower
\$4.95.

Why Not GIVE
A Pair of Book-ends?

A FRIEND is needed to
gather under its wing
few beloved books. Here
you order your days. Here
your Gift Shop you will
find Candelsticks, Telephone
screens and other odd bits
delightful. Book-ends
and more.

Why Not GIVE
A Pair of Book-ends?

A Pair of Book-ends?

MAN KILLED AT GIRL'S SIDE

LABORITES GAIN SEATS; LADY ASTOR ELECTED

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, Nov. 15.—At 6 o'clock this morning the results of the general election were announced. The Conservatives were credited with a gain of twelve seats, the Independent Liberals with two, and the Georgeite Liberals with two.

LONDON, Nov. 15.—The Conservative party has returned more members to Parliament than all the other parties combined, so far as returns completed. Wednesday night show. The Laborites come next and the Labor party is considered due for congratulations, as it already has a gain of twenty-eight seats. These are all in the congested industrial areas, notably in Glasgow, where predictions that Labor would triumph have been fulfilled, and the results of the last election overturned by a good of Laborite votes. The Conservatives and Georgeite Liberals being ousted in several London districts.

This was the most striking feature of the returns, but may be balanced by counts to be made to-day. The Asquithian Liberals gained seven seats, the Conservatives six, the Georgeites three and the Independents two. Two members of the government were defeated. Lord Leslie Wilson, chief Conservative whip, and Col. Stanley Underhill, Secretary for Home Affairs.

Of all the women candidates Lady Astor is the only one returned thus far. The Prime Minister Andrew Bonar Law, carried the central division of Glasgow by a comfortable majority, while former Premier Asquith had a narrow escape in his Paisley constituency, where he just missed out the Laborites.

A notable point in the balloting was how near the danger of a tie was between the Conservatives and the Labor party. In 1918 the Conservatives won by a margin of 4,443, as compared with 4,125 in the 1918 bye-election. The personality of Lady Astor and her social policies were

(Continued on Second Page)

TURN OUT TO VOTE

Election Results Show Lighter Poll Than in 1918, With Laborites Gaining

BY JOHN STEELE
(BY CABLE-EXCLUSIVE DISPATCH.)
LONDON, Nov. 15.—An English poll today at the general election will determine the fate of the Bonar Law government but, in comparison, there was a noticeable lack of enthusiasm.

The first two results, from Wakefield and Wallasey, which the Conservatives held, showed a lighter total poll than in 1918. When the total electorate was much smaller.

The third result also showed no change, the Conservative holding his seat, but the Labor candidate doubled his vote, and the fourth, the great Yarmouth district, elected an Asquithian Liberal over a Conservative.

Owing to the system of English elections scenes like those on election night in American cities are impossible. There is no voting for national leaders, but only for local members of Parliament, and the Prime Minister goes to the leader of the party which has a majority in Parliament.

JURORS PAY ATTORNEYS FOR MINERS

BY WALTER YUST
(EXCLUSIVE DISPATCH.)
(Copyright, 1922, Public Ledger.)
MARION (Ill.) Nov. 15.—Judge Dewitt C. Hartwell will not permit any "wholesale" elimination of venemore in the Herrin massacre trial because they are members of the United Mine Workers of America, or because they are assessed 1 per cent on their salary to defray the expenses of the defendants.

"But I will rule as each case comes up," said the Judge. "I am not going to throw out a good man just because he belongs to an organization and pays his dues."

ADMITTS ASSIGNMENT
The issue was presented and the examination of jurors halted today by State's Attorney Delos L. Duty when Venemore Amos Anderson, a union miner, admitted that his salary was reduced 1 per cent some months ago. Asked whether he knew that the assessment was used to pay for the defense of the five union men charged with the killing of Howard Hoffman at the Lester strip mine massacre last June, Anderson replied, "Not that I know of."

The State immediately challenged for cause. Judge Hartwell overruled the challenge and invited all the attorneys to a closed conference. Newspaper men were admitted.

CURIOUS SITUATION
We are presented here with a curious situation, said Otto F. Glenn, one of the State's assistants, "where six out of every seven venemore attorneys are actually the employers of the counsel for the defense. In justice to the people we should not be forced to waste our money on attorneys who are employing the opposing attorneys. We are all under suspicion in this trial. We should above all be permitted to remove this suspicion. Certainly the men who are hiring the lawyers on one side of a lawsuit sympathize with their own lawyers."

"The State can prove that members of the coal miners' union here have been contributing 1 per cent of their salaries for the expenses of the defense during the past six days," said Assistant State's Attorney Charles W. Mickelson. "In the interest of common justice the prosecution should be allowed to bring such facts before court."

Judge Hartwell ruled that that would require a separate trial for each juror.

"TIGER" HAS GOOD TIME UPON SHIP

Takes Advantage of Fine Day to Pace Decks and Chat With Passengers

(BY RADIO AND EXCLUSIVE DISPATCH.)
ON BOARD THE STEAMSHIP PARIS, EN ROUTE TO NEW YORK, Nov. 15.—M. Clemenceau today for the first time during his voyage to New York showed himself a good "mixer." The former Premier of France appeared on deck at 10:30 this morning in high spirits and walked and talked with other passengers, stopped and played with young children on board and laughed and conversed with the newspaper men.

The "Tiger" bettered by half an hour his record of Tuesday on arising, coming out of his state room at 6:30 this morning. Tuesday morning he made his appearance at the "dradfully shaggy" hour of 7. He ate his usual light breakfast early and then proceeded to spend the morning enjoying the glorious sunshine and the smoothest day of the trip. Passengers frequently took snapshots of Clemenceau.

The Spider and the Fly

HARDING FIRM ON BONUS

President Contradicts Rumor That He Would Withdraw Veto; Sees No Rebuke in Election

(EXCLUSIVE DISPATCH.)
WASHINGTON, Nov. 15.—By far the most important and significant utterance that has come from the White House since election was the prompt and emphatic denial given today of the report that President Harding had interpreted the elections to mean that the country wanted the bonus bill, and therefore he would withdraw his veto.

President Harding directed this morning, following the publication of the report, that inquiries should be told that there was no truth in it; that his attitude toward the bonus bill has not been changed; that it is precisely the same as it was when he vetoed the measure, and that he is even more firmly convinced than ever that no bonus bill should be enacted that does not carry its own method of financing adequately the new obligations it will lay on the treasury.

BALLOT ACT IS RUSHED IN IRELAND

Suffrage Measure Delays Election; Making Register Enormous Task

BY PAUL WILLIAMS
(BY CABLE-EXCLUSIVE DISPATCH.)
DUBLIN, Nov. 15.—Although not empowered to legislate, the provisional Parliament, under direction of the provisional government, is going as far as possible, anticipating the condition which will confront the Free State when it comes into being before December 6.

Today Parliament will approve of the provisions of the electoral bill which was formally introduced immediately after the Free State was born. Approval now will give the officials thirty days to start on the enormous task of making a new register. As the bill will confer universal suffrage upon citizens over 21 years of age, many months must elapse before the new register is completed and it is hardly possible that the election will be held before summer.

MYSTERY SHOTS FIRED AS PAIR SIT IN MACHINE

(EXCLUSIVE DISPATCH.)
VENTURA, Nov. 15.—Four pistol shots fired from the darkness ended the life of Buell Barrows, an automobile mechanic, aged 21 years, as he sat by the side of a girl companion in an automobile at the beach here last night. The girl, Hazel Middleton, 17 years old, student at the Ventura High School, was powder-burned about the face by shots evidently intended for her. She was not hit by any of the bullets, however.

The identity of the murderer and his motive is a complete mystery to the officials here. The theory accepted now is that Barrows and his companion were mistaken by a jealous husband for his wife and a guilty interloper. The girl said she heard, but did not see, their assailant.

According to the story told by Miss Middleton, she and Barrows left the home of her sister, Mrs. Harold Quenell, with whom she resides, in Barrows' car. Arriving at the beach, they stopped to watch a boat unloading at a nearby dock, both being seated in the front of the machine. The girl says she heard a noise back of the car and cautioned her companion to listen.

At that moment the shots were fired in quick succession, two at Barrows and two at the girl. One bullet penetrated the man's jaw, causing his death within ten minutes. Search for the slayer was immediately organized by the Sheriff and a posse of deputies and citizens.

G.O.P. WILL FIGHT FIRE WITH FIRE
BY ROBERT BARRY
(Copyright, 1922, Public Ledger.)
(EXCLUSIVE DISPATCH.)
WASHINGTON, Nov. 15.—Conservative Republican Senators, returning to Washington for the assembling of Congress, let it be known today they are going to fight fire with fire in the struggle within their party with the new insurgent group. They are not to take their election-day whipping lying down.

They believe the "radicals" as they call them, captured certain sections of the country because of a persistent educational campaign among the people that all was wrong and corrupt at Washington; that Wall Street was in the saddle and the profligate had led the parade.

IN PLASTIC STATE
They believe the public mind of America, being in a plastic state may be molded just as effectively against "bunk" theories in politics as some of its geographical cells seem to have been shaped by the "radicals." They wish to have the Republican party, under the leadership of President Harding, engage in a counter-educational program to explode the folly of the "bunk" by which the farm bloc, Farm Labor, Non-Partisan League leaders appealed to conflicting elements in the camp of the discontented.

It is their theory that it will not be long before this so-called "plastic mind" of the American voter will be convinced that it is not possible to lower freight rates to the point demanded by the farmer without affecting the wages of labor which must depend on the earnings of the railroads. Nor, conversely do they believe it is possible to give labor its "living wage" adding billions to the railroads.

(Continued on Second Page)

MEXICO MAKES PROTEST

State Department Told Nationals Are Murdered and That United States Authorities Are Winking

(EXCLUSIVE DISPATCH.)
(Copyright, 1922, Public Ledger.)
WASHINGTON, Nov. 15.—The Mexican government today made formal and vigorous protest to the United States of what the Mexican authorities termed frequent indiscriminate killing of Mexican citizens in Texas and other border States. More than a score of Mexicans, the government was told, have met violent death on American soil within the past three months, and in the majority of cases local American authorities have failed to bring the offenders to justice.

The charges of the Obregon government were contained in a note presented to the State Department, which asserted also that repeated representations of protest had been made without avail by various representatives of Mexico, and that the situation rapidly is becoming intolerable.

LYNCHING ROUSES IRE
The immediate occasion for the protest, which is couched in the firmest tones, was the lynching last week of Elias Villarreal Zarata, a Mexican citizen, who had been arrested in a fist fight with an American at Weslaco, Tex., and thrown into jail, where he was awaiting trial.

Having been warned that the prisoner had been threatened, the Mexican Consul at Hidalgo, Tex., notified the authorities at Weslaco and asked them to take action. Last Saturday the Mexican was taken from the jail and lynched, the note states, without any attempt on the part of the authorities to prevent it.

Not only did the local authorities make no effort to prevent the lynching of the prisoner, the note declares, but the life of the Mexican Consul and that of other Mexicans were with him at the time of his death.

GEN. WRIGHT SUCCUMBS IN MEMPHIS

(BY A. P. DAY WIRE.)
MEMPHIS (Tenn.) Nov. 15.—Gen. Luke P. Wright, former Secretary of War, Governor-General of the Philippines and Ambassador to Japan, died at his home here early today after an illness of several months.

Gen. Wright, who had been prominent in the professional and business life of Memphis for a half-century, suffered a fall several months ago and since then had been in declining health. For almost a week he had been only semiconscious, and gradually grew weaker.

His wife, who was a daughter of Admiral Raphael Semmes, and two daughters—Mrs. John M. Watkins and Mrs. M. R. Palmer of New York—were with him at the time of his death.

GOVERNMENT BUILDING BY DEFENDERS

ST. A. P. NIGHT WIRE

Nov. 15.—Washington was "stirred" today by a defending squadron of army planes which repelled the invaders in a battle which was "captured" and after some time to launch on Bolling field.

The actual landing of the enemy had been feared to be made at Bolling field, where the surprise point of attack had been reported as being made.

The actual landing of the enemy had been feared to be made at Bolling field, where the surprise point of attack had been reported as being made.

ARMOUR PLANS NEW MERGER

Proposal to Purchase One of "Big Five" Made

Asks Daugherty and Wallace for Approval

Sentiment Found Favorable to Consolidation

ST. A. P. NIGHT WIRE

WASHINGTON, Nov. 15.—J. Ogden Armour, head of the Chicago meat packing-house of Armour & Co., presented today to Atty.-Gen. Daugherty and Secretary Wallace of the Department of Agriculture, a proposal for merging through purchase the physical assets of another of the big five national packing-houses with Armour & Co. Which of the concerns the Armour organization proposes to absorb was not disclosed, although both Wilson & Co. and Morris & Co. of the packing group have been mentioned in connection with the plan. Officials concerned refrained entirely from expressing comment or opinion in the matter.

Mr. Armour tonight likewise declined to make any statement, except that he intended to remain in Washington for another day. It was assumed that a desire to determine the legality of such a merger, in advance of taking any steps to complete it, had led to the consultation with officials.

Secretary Wallace, after his conference with Mr. Armour and several associates who accompanied him to Washington, issued a statement saying he had expressed no opinion upon the Armour plan and it was indicated that Atty.-Gen. Daugherty had likewise withheld decision, although immediate consideration was promised for it.

Somewhat similar approaches have been made to the government recently by heads of independent steel corporations contemplating merger, but Mr. Wallace's statement indicated that the packing industry, because of the existence of special legislation, providing for its specific regulation by the Federal government, stood in a different position.

BAKERSFIELD MEN IGNORE STRIKE CALL

ST. A. P. NIGHT WIRE

BAKERSFIELD, Nov. 15.—There was no walkout here this morning by shopmen on the Pacific and Southern Pacific railways according to statements received here yesterday that a strike order affecting about sixty men both roads would go into effect at 10 o'clock this morning.

The strike order was being disobeyed.

ARMOUR PLANS NEW MERGER

Proposal to Purchase One of "Big Five" Made

Asks Daugherty and Wallace for Approval

Sentiment Found Favorable to Consolidation

ST. A. P. NIGHT WIRE

WASHINGTON, Nov. 15.—J. Ogden Armour, head of the Chicago meat packing-house of Armour & Co., presented today to Atty.-Gen. Daugherty and Secretary Wallace of the Department of Agriculture, a proposal for merging through purchase the physical assets of another of the big five national packing-houses with Armour & Co. Which of the concerns the Armour organization proposes to absorb was not disclosed, although both Wilson & Co. and Morris & Co. of the packing group have been mentioned in connection with the plan. Officials concerned refrained entirely from expressing comment or opinion in the matter.

Mr. Armour tonight likewise declined to make any statement, except that he intended to remain in Washington for another day. It was assumed that a desire to determine the legality of such a merger, in advance of taking any steps to complete it, had led to the consultation with officials.

Secretary Wallace, after his conference with Mr. Armour and several associates who accompanied him to Washington, issued a statement saying he had expressed no opinion upon the Armour plan and it was indicated that Atty.-Gen. Daugherty had likewise withheld decision, although immediate consideration was promised for it.

Somewhat similar approaches have been made to the government recently by heads of independent steel corporations contemplating merger, but Mr. Wallace's statement indicated that the packing industry, because of the existence of special legislation, providing for its specific regulation by the Federal government, stood in a different position.

MONOPOLY FORBIDDEN

Secretary Wallace quoted from the recent Packers' and Stockyard Act, establishing this particular control, in pointing out that packers were forbidden to engage in any business practice creating a monopoly or fixing prices, while the Federal Trade Commission had been given authority to investigate their operations at any time. The legislation further gives the Secretary power to supervise the business at all of its points of contact with either the producer or consumer and to correct unfair practices.

There is said to have been considerable discussion within the industry, since the passage of these laws, after a long period of agitation, backed by farm organizations, developing the suggestion that consolidations among the "big five" might be advantageous in a business way and at the same time open to no public objection. Negotiations were understood to have reached the stage where officials of national farm organizations have been asked to say whether such consolidations, considering the degree of government control already in the field, would be regarded as hostile by other components of the live-stock industry.

DAUGHERTY SILENT

Mr. Armour's visit was understood to have resulted not only from a desire to take all precautions against possible government interference later, but also from the general policy of the packers to keep the government informed of all new developments in the field. A similar course was followed two years ago when the packing companies, after investigation had been instituted by voluntary agreement, undertook to divest themselves of stockyard ownership and to refrain from operating in industries unrelated to meat packing.

Whether Mr. Armour intended to take up the questions at issue with the Federal Trade Commission was not known, although the government agency has frequently been in contact with the industry in recent years. Atty.-Gen. Daugherty has repeatedly stated that he was officially in favor of the government assisting in the formation of legitimate trade combinations and associations when such combinations would permit of increased efficiency for the American producer in his search for a market and in the competition with foreign trade bodies in handling those markets.

The Attorney-General recently suggested that a government agency should be set up to advise with American firms desiring to consolidate or to associate among themselves for a common purpose, in order that the members of the proposed association might proceed with due knowledge of their legal limitations.

Mr. Daugherty said at the time he was willing for the Department of Justice to undertake such an advisory activity, but was of the opinion that a separate agency would better serve the purpose in view.

MORRIS'S STATEMENT

ST. A. P. NIGHT WIRE

CHICAGO, Nov. 15.—Edward Morris, president of Morris & Co., known as one of the "big five" firms of packers, issued the following statement tonight regarding reports that a possible merger between his organization and that of Armour & Co. were being discussed with government officials in Washington:

"We are not in shape to speak for Armour & Co., but Morris & Co. have not sent a representative to Washington, D. C., to confer with the Secretary of Agriculture or the Federal Trade Commission."

Mr. Morris refused any further comment on the visit today of J. Ogden Armour to Secretary Wallace, of the Department of Agriculture, at Washington.

DISABLED SHIP IN TOW

ST. A. P. NIGHT WIRE

NEW YORK, Nov. 15.—The steamship West Hematite, bound from Hamburg to New Orleans, has been taken in tow by the steamer Saucen, after sending out distress signals. She carries a crew of thirty-three. Her position was given as about 1300 miles east of Boston.

Italy Supports Turks' Aim to Balance Power

ST. A. P. NIGHT WIRE

ROME, Nov. 15.—Reports that the British are making Gibraltar a formidable aviation base are causing some concern in Italy. As Italy depends upon its shipping to bring it most of its important imports, the country in case of war is already virtually at the mercy of England, which controls the only two outlets of the Mediterranean.

The addition of aviation to Gibraltar's arsenal and the probability that the other British naval bases in the Mediterranean—Malta, Cyprus and Egypt—will be similarly strengthened have made Italy the more determined that the Dardanelles, at least, be kept free of British control.

It is believed in some quarters that if the Turks are not allowed to dominate the straits the British will as any plan of demilitarization and international control would in time of war when treaties are scraps of paper simply make it easier for the strongest sea and air power in the Mediterranean to seize control of them.

HUGE VOTE POLLED; NOBODY ELECTED

ST. A. P. NIGHT WIRE

WASHINGTON (Pa.) Nov. 15.—More than 15,000 votes were cast for State Senator from the Washington-Greene county district on November 7, and the result was a tie.

Common Pleas Judge Edwin Cummins today ruled that seventeen votes cast in the Fifth Precinct of McDonald county should not be counted. The official count showed 17,757 votes for Col. James E. Barnett and the same number for George B. Sprengle. The McDonald precinct in dispute is located in Allegheny county.

A special election will probably be held.

PRINCE GEORGE REPORTS

ST. A. P. NIGHT WIRE

BERLIN, Nov. 15.—Belgrade dispatches state Prince George has submitted to his brother, King Alexander, and promised to be good. The Crown Council has decided the conflict is thereby settled.

Corns Go

Just say **Blue-jay** to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it!) and in extra thin plasters. The action is the same. Pain Stops Instantly.

Skill, Ability, Experience

YOUR EYES EXAMINED GLASSES \$2.65 COMPLETE

An examination of your eyes, a pair of spherical glasses, for either reading or for distance, in a suitable frame, complete for \$2.65. One week only.

Cylindrical glasses, gold or shell frames, toric, fancy shapes and double vision glasses correspondingly low, and the best of all is the good correction I give you.

It is not simply getting a Pair of Glasses. They may do you an irreparable harm by injuring your vision for the years that are ahead of you.

Buy Skill, Ability and Experience. Have the Lenses properly fitted so as to take the Strain from the Eyes and Protect the Eyes for the Future Years.

It is this Skill, Ability and Experience that I offer—an Optical Examination. My prices are always reasonable and I do not use drops in the eye for examining. To avoid waits and delays, write or phone for appointment.

ARMOUR PLANS NEW MERGER

Proposal to Purchase One of
"Big Five" Made

Asks Daugherty and Wallace
for Approval

Sentiment Found Favorable
to Consolidation

WASHINGTON, Nov. 15.—(By A. P. Night Wire.)—The Armour meat packing-house of Chicago, presented today to Atty.-Gen. Daugherty and Secretary Wallace of the Department of Agriculture, a proposal for merging through purchase the physical assets of another of the big five national packing-houses with Armour & Co. Which of the concerns the Armour organization proposes to absorb was not disclosed, although both Wilson & Co. and Morris & Co. of the packing group have been mentioned in connection with the plan. Officials concerned refrained entirely from expressing comment or opinion in the matter.

Mr. Armour tonight likewise declined to make any statement, except that he intended to remain in Washington for another day. It was assumed that a desire to determine the legality of such a merger, in advance of taking any steps to complete it, had led to the consultation with officials.

Secretary Wallace after his conference with Mr. Armour and several associates who accompanied him to Washington, issued a statement saying he had expressed no opinion upon the Armour plan and it was indicated that Atty.-Gen. Daugherty had likewise withheld decision, although immediate consideration was promised for it.

Somewhat similar approaches have been made to the government recently by heads of independent steel corporations contemplating merger, but Mr. Wallace's statement indicated that the packing industry, because of the existence of special legislation, providing for its specific regulation by the Federal government, stood in a different position.

MONOPOLY FORBIDDEN
Secretary Wallace quoted from the recent Packers' and Stockyard Act, establishing this particular control, in pointing out that packers were forbidden to engage in any business practice creating monopoly or fixing prices, while the Federal Trade Commission had been given authority to investigate their operations at any time. The legislation further gives the Secretary power to supervise the business at all of its points of contact with either the producer or consumer and to correct unfair practices.

There is said to have been considerable discussion within the industry, since the passage of these laws, after a long period of agitation, backed by farm organizations, developing the suggestion that consolidations among the "big five" might be advantageous in a business way and at the same time open to no public objection. Negotiations were understood to have reached the stage where officials of national farm organizations have been asked to say whether such consolidations, considering the degree of government control already in the field, would be regarded as hostile by other components of the live-stock industry.

DAUGHERTY SILENT
Mr. Armour's visit was understood to have resulted not only from a desire to take all precautions against possible government interference later, but also from the general policy of the packers to keep the government informed of all new developments in the field. A similar course was followed two years ago when the packing companies, after investigation had been instituted by voluntary agreement, undertook to discontinue themselves of stockyard ownership and to refrain from operating in industries unrelated to meat packing.

Whether Mr. Armour intended to take up the questions at issue with the Federal Trade Commission was not known, although the government agency has frequently been in contact with the industry in recent years.

Atty.-Gen. Daugherty has repeatedly stated that he was officially in favor of the government assisting in the formation of legitimate trade combinations and associations when such combinations would permit of increased efficiency for the American producer in his search for a market and in the competition with foreign trade bodies in handling those markets.

The Attorney-General recently suggested that a government agency should be set up to advise with American firms desiring to consolidate or to associate among themselves for a common purpose, in order that the members of the proposed association might proceed with due knowledge of their legal limitations.

Mr. Daugherty said at the time he was willing for the Department of Justice to undertake such an advisory activity, but was of the opinion that a separate agency would better serve the purpose in view.

MORRIS'S STATEMENT
CHICAGO, Nov. 15.—Edward Morris, president of Morris & Co., known as one of the "big five" firms of packers, issued the following statement tonight regarding reports that a possible merger between his organization and that of Armour & Co. were being discussed with government officials in Washington:

"We are not in shape to speak for Armour & Co., but Morris & Co. have not sent a representative to Washington, D. C., to confer with the Secretary of Agriculture or the Federal Trade Commission."

Mr. Morris refused any further comment on the visit today of J. Ogden Armour to Secretary Wallace, of the Department of Agriculture, at Washington.

DISABLED SHIP IN TOW
(By A. P. Night Wire.)
NEW YORK, Nov. 15.—The steamship West Hematite, bound from Hamburg to New Orleans, has been taken in tow by the steamer Saucon, after sending out distress signals. She carries a crew of thirty-three. Her position was given as about 1200 miles east of Boston.

Italy Supports Turks' Aim to Balance Power

ROME, Nov. 15.—(By A. P. Night Wire.)—Reports that the British are making Gibraltar a formidable aviation base are causing some concern in Italy. As Italy depends upon its shipping to bring it most of its important imports, the country in case of war is already virtually at the mercy of England, which controls the only two outlets of the Mediterranean.

The addition of aviation to Gibraltar's arsenal and the probability that the other British naval bases in the Mediterranean—Malta, Cyprus and Egypt—will be similarly strengthened have made Italy the more determined that the Dardanelles at least, be kept free of British control.

It is believed in some quarters that the Turks are not allowed to dominate the straits the British will, as any plan of demilitarization and international control would in time of war when treaties scraps of paper simply make it easier for the strongest naval and air power in the Mediterranean to seize control of them.

HUGE VOTE POLLED;
NOBODY ELECTED
(By A. P. Night Wire.)
WASHINGTON (Pa.) Nov. 15.—More than 55,000 votes were cast for State Senator from the Washington-Greene county district on November 7, and the result was a tie.

Common Pleas Judge Erwin Cummins today ruled that seventeen votes cast in the Fifth Precinct of McDonald county should not be counted. The official count showed 17,757 votes for Col. James E. Barnett and the same number for George B. Sprawls. The McDonald precinct in dispute is located in Allegheny county.

A special election will probably be held.

PRINCE GEORGE REFORMS
(By A. P. Night Wire.)
BERLIN, Nov. 15.—Belgrade dispatches state Prince George has submitted to his brother, King Alexander, a plan for the reformation of the Crown Council has decided the conflict is thereby settled.

Corns Go
Just say
Blue-jay
to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in extra thin plasters. The action is the same.

Pain Stops Instantly

ROW OVER DRY APPROPRIATION

Haynes Asks Nine Millions for Enforcement

Gallivan Takes Raps at Publicity Man

Prohibition Chief Accuses Newspapers of Plot

(REUTERS DISPATCH)

WASHINGTON, Nov. 15.—Roy A. Haynes, federal prohibition commissioner, received a baptism of verbal fire at the hands of Representative James A. Gallivan, an avowed "wet," when the commissioner appeared today before the House Appropriations Committee to seek an appropriation of \$9,000,000 for enforcing the dry laws during the coming year.

The sum requested last year was the same, although the enforcement bureau had requested \$250,000 bonds, which was refused by the director of the budget.

"Didn't you say last year that 30,000,000 people went on the water wagon, and if that is so why do you want the same amount of money this year you asked for last year?" Representative Gallivan asked the commissioner, who denied that he ever made such a statement.

To this Gallivan Representative Gallivan countered that the statement in question was put out by Sherman L. Cuneo, who is on the rolls as a "special examiner," but who to all intents is the press agent of the organization and from whose desk comes each day a mass of advertising matter in the shape of newspaper notices. Mr. Haynes said he had never read the statement.

In reply to questions, Haynes admitted that Cuneo had accompanied him on a number of trips. He also said Cuneo had made a trip to Miami at the time President Harding was in Florida.

"That was the time," Haynes asked Representative Gallivan, "when Cuneo wired you to ship him his special examiner's badge. He could make a front in Miami?"

Although Haynes said he knew nothing about such a telegram, Gallivan declared it could be found in the official files of the prohibition bureau and had been sent at government expense.

A vigorous attack on the newspapers was made by Commissioner Haynes, who charged them with organized propaganda against the dry laws. Representative Gallivan replied by saying that he thought the only criticism against the bureau was produced because of the great amount of publicity matter sent out from headquarters.

"Didn't Cuneo," Haynes asked, "write a book on the life of President Harding 'From Printer to President,' on government time, using government stationery to send out his advance notices of the book?" asked Representative Gallivan.

STAMPS BRING SMALL FORTUNE

High Bidding Marks Auction at Paris of Cuneo's Collection

(BY CABLE AND ASSOCIATED PRESS)

PARIS, Nov. 15.—One hundred and thirty thousand francs were realized for a pair of Spanish two-real stamps of the issue of 1881 in the sale today of the fifth section of the stamp collection of the late Count Ferrat, this being the high-water mark of the opening day of the auction. The Bermuda penny issue of 1884, on the entire envelope, came next, bringing 30,000 francs, while many other rare stamps sold at from 1000 to 15,000 francs.

The purchasers paid an additional government tax of 17 1/2 per cent.

AVIATOR LEAPS FROM FALLING ARMY PLANE

PARACHUTE ENABLES LIEUT. TENDALL TO SAVE LIFE IN SPILL

(BY A. P. MONT WIRE)

SEATTLE, Wash., Nov. 15.—When the airplane in which he was flying at a height of 8000 feet this afternoon got from under control and started to crash to earth, Lieut. Frank R. Y. Tendall, pilot, leaped in a parachute and escaped with only slight scratches.

The plane was destroyed.

Lieut. Tendall was testing for the Army a pursuit plane manufactured by the Boeing Airplane Company of Seattle. At the height of 8000 feet, Lieut. Tendall said, the plane was struck by an exceptionally heavy test which he imposed, and the plane headed for the water. The aviator, however, was able to clear himself from the wrecked plane and drifted down with his parachute to safety.

The plane crashed into Elliott Bay, but Lieut. Tendall landed on Harbor Island, in the heart of the city.

Drivers were called to attempt to salvage parts of the wrecked plane.

RAIL LABOR BOARD FAVORED BY FESS

DOES NOT WANT IT ABOLISHED UNTIL BETTER PLAN IS DEvised

(BY A. P. MONT WIRE)

CINCINNATI, Nov. 15.—Opposition to the proposed abolishment of the United States Railroad Labor Board until it has had time to work itself out, or until a better plan is found for arriving at decisions in cases affecting the nation's railroads, was voiced in an address here tonight by Simon D. Fess, United States Senator from Ohio, before the Real Estate Board.

Mr. Fess declared that there must be better ways of settling industrial differences than by lock-outs and strikes, but that abolishing the board would not help the situation.

A tax commission, composed of members of Congress and representatives of business and labor, is the present tax system with a view of forming a plan for its complete revision, he advocated by the Senator-elect. He declared that the shipping situation must be worked out, as the merchant marine now is operated at a loss of \$50,000,000 a year without effect results.

REAP HARVEST FROM QUEBEC LIQUOR LAW

QUEBEC, Nov. 15.—The Quebec liquor law has proved a financial and moral success, James Nicoll, provincial treasurer, announced today in the year and in June were \$4,000,000, he said. The year's provincial surplus is \$5,032,415.

The Quebec law provides that liquor of varying strength be sold solely by government stores in municipalities that have voted dry. Drinking on government premises is prohibited but coffee and beer are permitted. They also did a good business in the government.

CITY FUNDS TIED UP BY CLERK'S ABSENCE

(BY A. P. MONT WIRE)

NEWMAN, Nov. 15.—W. H. Gibson, the Newman town clerk, is missing and his absence has tied up all the city's official business, as the board of trustees has no power to appoint an acting official.

Gibson left Newman Wednesday on a trip to Visalia which he stated would last a couple of days. He had been in poor health for some time and his unexplained absence is causing uneasiness.

For an Impaired Appetite
Loss of appetite always results from faulty digestion. As a general rule, all this is needed is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They will strengthen the stomach, improve the digestion and give you a good appetite. They also induce a gentle movement of the bowels. (Advertisement.)

FARM CREDIT IN PROSPECT

War Finance Corporation Head Talks With Harding

Congress May be Called Upon for Legislation

Modification of Reserve Rules, Meyer's Plan

(BY A. P. MONT WIRE)

WASHINGTON, Nov. 15.—Eugene Meyer, Jr., managing director of the War Finance Corporation, conferred with President Harding today and was understood to have discussed the farm credit situation. It is believed that in his message to the regular session of Congress in December, Mr. Harding may discuss the possibility of need for legislation to provide permanent financing machinery for the agricultural and live-stock industries of the country.

The President's plan, Mr. Meyer takes the position that the War Finance Corporation is essentially a temporary agency designed to meet an emergency banking need of the country. In his view the solution of the farm credit problem lies in reliance upon the permanent capital and management of the agricultural and live-stock industries, looking to the government only to choose the proper machinery and to provide the necessary supervision and regulation.

ENGLAND PAYS SOME WAR DEBT INTEREST

MORE THAN FIFTY MILLIONS RECEIVED FOR ACCOUNT OF UNITED STATES

(BY A. P. MONT WIRE)

WASHINGTON, Nov. 15.—Receipts of \$50,610,000 for the account of the United States government were reported today to the Treasury by the Federal Reserve Bank of New York.

Of the total \$50,610,000 represents interest on the debt of Great Britain to the United States, \$10,000,000 represents interest on the debt of the United States to Great Britain during the war, which is in the process of liquidation, there being \$18,610,000 of this account still outstanding.

A similar payment of \$50,000,000 by Great Britain to the United States was made on October 15 by Great Britain, making a total of \$100,000,000 paid as the first semi-annual installment of interest on the war debt of nearly \$5,000,000,000, but the two payments are subject to adjustment, as the debt at present bears interest at a rate of 4 1/2 per cent while the Debt Funding Act authorizes a rate of not less than 4 1/4 per cent.

LOADING OF FREIGHT ON ROADS IMMENSE

WASHINGTON, Nov. 15.—The freight loaded on American railroads for the week ending November 4, the car service division of the American Railroad Association reported today, amounted to \$4,241,247, which was a total greater than that carried in the same week of either 1934 or 1931.

During the same week the railroads had 24,480 cars of freight lines awaiting repairs, a number smaller than at any time since last March.

BEAT BETTING BILL AT MONTANA POLLS

(BY A. P. MONT WIRE)

HELENA (Mont.), Nov. 15.—The initiative measure to permit mutual betting at State and county fairs in Montana was apparently defeated in the election November 7, according to unofficial figures collected by the Montana Record Herald.

With results compiled from forty-one counties, the vote stood 42,127 for and 49,294 against.

For the soldiers' bonus referendum measure, the vote stood 52,318 for and 45,964 against.

SHAKESPEARE FOLIO STAYS IN LONDON

(BY CABLE-EXCLUSIVE DISPATCH)

LONDON, Nov. 15.—America failed in an effort to obtain the Shakespeare first folio sold at Sotheby's today.

Mrs. Edith Lowe, representing Harpers of New York, led in the early bidding and carried the price to \$19,000 before quitting.

A London dealer, Sabin, obtained the book at \$27,000. The second, third and fourth folios sold comparatively cheaply, fetching only \$7500 for all three.

STAMPS BRING SMALL FORTUNE

LOADING OF FREIGHT ON ROADS IMMENSE

WASHINGTON, Nov. 15.—The freight loaded on American railroads for the week ending November 4, the car service division of the American Railroad Association reported today, amounted to \$4,241,247, which was a total greater than that carried in the same week of either 1934 or 1931.

BEAT BETTING BILL AT MONTANA POLLS

(BY A. P. MONT WIRE)

HELENA (Mont.), Nov. 15.—The initiative measure to permit mutual betting at State and county fairs in Montana was apparently defeated in the election November 7, according to unofficial figures collected by the Montana Record Herald.

With results compiled from forty-one counties, the vote stood 42,127 for and 49,294 against.

For the soldiers' bonus referendum measure, the vote stood 52,318 for and 45,964 against.

SHAKESPEARE FOLIO STAYS IN LONDON

(BY CABLE-EXCLUSIVE DISPATCH)

LONDON, Nov. 15.—America failed in an effort to obtain the Shakespeare first folio sold at Sotheby's today.

Mrs. Edith Lowe, representing Harpers of New York, led in the early bidding and carried the price to \$19,000 before quitting.

A London dealer, Sabin, obtained the book at \$27,000. The second, third and fourth folios sold comparatively cheaply, fetching only \$7500 for all three.

STAMPS BRING SMALL FORTUNE

High Bidding Marks Auction at Paris of Cuneo's Collection

(BY CABLE AND ASSOCIATED PRESS)

PARIS, Nov. 15.—One hundred and thirty thousand francs were realized for a pair of Spanish two-real stamps of the issue of 1881 in the sale today of the fifth section of the stamp collection of the late Count Ferrat, this being the high-water mark of the opening day of the auction. The Bermuda penny issue of 1884, on the entire envelope, came next, bringing 30,000 francs, while many other rare stamps sold at from 1000 to 15,000 francs.

The purchasers paid an additional government tax of 17 1/2 per cent.

AVIATOR LEAPS FROM FALLING ARMY PLANE

PARACHUTE ENABLES LIEUT. TENDALL TO SAVE LIFE IN SPILL

(BY A. P. MONT WIRE)

SEATTLE, Wash., Nov. 15.—When the airplane in which he was flying at a height of 8000 feet this afternoon got from under control and started to crash to earth, Lieut. Frank R. Y. Tendall, pilot, leaped in a parachute and escaped with only slight scratches.

The plane was destroyed.

Lieut. Tendall was testing for the Army a pursuit plane manufactured by the Boeing Airplane Company of Seattle. At the height of 8000 feet, Lieut. Tendall said, the plane was struck by an exceptionally heavy test which he imposed, and the plane headed for the water. The aviator, however, was able to clear himself from the wrecked plane and drifted down with his parachute to safety.

The plane crashed into Elliott Bay, but Lieut. Tendall landed on Harbor Island, in the heart of the city.

Drivers were called to attempt to salvage parts of the wrecked plane.

RAIL LABOR BOARD FAVORED BY FESS

DOES NOT WANT IT ABOLISHED UNTIL BETTER PLAN IS DEvised

(BY A. P. MONT WIRE)

CINCINNATI, Nov. 15.—Opposition to the proposed abolishment of the United States Railroad Labor Board until it has had time to work itself out, or until a better plan is found for arriving at decisions in cases affecting the nation's railroads, was voiced in an address here tonight by Simon D. Fess, United States Senator from Ohio, before the Real Estate Board.

Mr. Fess declared that there must be better ways of settling industrial differences than by lock-outs and strikes, but that abolishing the board would not help the situation.

A tax commission, composed of members of Congress and representatives of business and labor, is the present tax system with a view of forming a plan for its complete revision, he advocated by the Senator-elect. He declared that the shipping situation must be worked out, as the merchant marine now is operated at a loss of \$50,000,000 a year without effect results.

REAP HARVEST FROM QUEBEC LIQUOR LAW

QUEBEC, Nov. 15.—The Quebec liquor law has proved a financial and moral success, James Nicoll, provincial treasurer, announced today in the year and in June were \$4,000,000, he said. The year's provincial surplus is \$5,032,415.

LOADING OF FREIGHT ON ROADS IMMENSE

WASHINGTON, Nov. 15.—The freight loaded on American railroads for the week ending November 4, the car service division of the American Railroad Association reported today, amounted to \$4,241,247, which was a total greater than that carried in the same week of either 1934 or 1931.

WOMEN ADOPT
DRY PROGRAM

W.C.T.U. World Convention
Maps Out Activities

Liquor Traffic to be Fought
in Every Land

Single Moral Standard is
Also Sought

(BY A. P. MORT WIRE)
PHILADELPHIA, Nov. 15.—The
world's Women Christian Temper-
ance Union convention today
adopted a three-year program to
carry out the organization's ideals.
The resolution called for work to-
ward abolition of the liquor trade
in every land, for the teaching of
scientific temperance to school-
children of all nations, a campaign
to urge pledge signing in all classes
of society and encouragement of
the compilation and study of sci-
entific facts that relate to the wa-
fare of the race.

The W.C.T.U. pledged itself
throughout international co-operation
to work for the establishment of
world peace. A resolution was
adopted urging a single standard of
personal purity for men and women,
on the ground that the strength
of a nation lies in the moral in-
tegrity of its people.

PLAN SUFFRAGE
The union also pledged itself to
continue to work for the political
equality of women in countries that
have not yet granted them suffrage.
In the countries where women have
the vote it was decided to work out
programs to promote the education
for citizenship in the affairs of
government.

These plans were incorporated in
a program of activities for the
years 1922-25, which program was
presented to the convention by
Mrs. De Borah Knox Livingstone,
superintendent of franchise, and
adopted.

In addition, a resolution was
adopted urging all the nations of
the world to join an international
campaign for suppression of liquor
sales on shipboard and copies of
the W.C.T.U. action will be sent
to heads of governments through-
out the globe with the request that
they place themselves on record
for or against "bone dry oceans."

FIGHT DRUG EVIL
Other resolutions urging a fourth
international Congress to combat
the traffic in habit-forming drugs,
pledged financial support for the
children of the Near East and law
enforcement of all countries and
States which have adopted legisla-
tion against alcoholic beverages.

The executive committee also
prepared a statement against
nudity in art and advertising and
more careful censorship on motion
pictures and literature.

Mrs. E. J. Simonds, president of
the Cuban branch of the organiza-
tion, censured certain Eastern lines
officials of the island republic, de-
claring that conditions at present
made the fight for prohibition
there difficult. She also deplored
intemperate habits among some
Americans visiting Cuba, asking
the convention to take action to-
ward keeping undesirable Ameri-
cans from the island.

AGED SQUAWS FOUND
DEAD IN BURNED CABIN

(BY A. P. MORT WIRE)
GOLDFIELD (Nev.) Nov. 15.—
Mattie and Annie, two Plute
squaws, each said to have been
nearly 100 years old, were burned
to death here last night in a fire
which destroyed a shack in which
they were living. Both were born
in Nevada and lived in the State
throughout their lives. They were
familiar figures at many of the
mining camps in the pioneer days.
Yesterday morning Annie drove
Mattie into the sagebrush near
their home after quarrel, accord-
ing to the authorities. A passer-
by found the aged squaw in the
sagebrush and brought her back
home in a wheelbarrow.

Mattie's body was found against
a stove, while Annie was in bed.
It was believed that sparks from
the stove set the shack on fire.

FIVE-YEAR GUARANTEE ON FEDERAL
Thomas Morgan, Attorney General, today
announced that the Federal
Government will guarantee for five
years the water rights of the State of
California.

Hall-Mills Mystery to Go
Before Grand Jury Mon-
day, is Indication

(BY A. P. MORT WIRE)
NEW BRUNSWICK (N. J.) Nov.
15.—Continuation of all actual investi-
gation of the Hall-Mills murder by
the force of the county and State
prosecutors tonight indicated that
the authorities were practically
ready to present to the Somerset
grand jury, Monday, the full story
of the slaying of the Rev. Edward
Whelan Hall and Mrs. Eleanor R.
Mills.

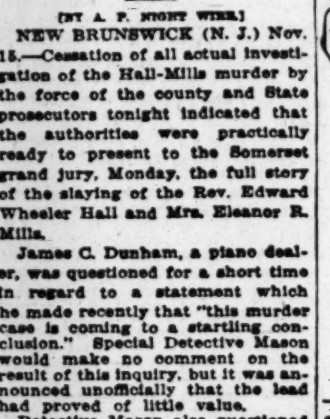

James C. Dunham, a piano dealer,
was questioned for a short time
in regard to a statement which
he made recently that "this murder
case is coming to a startling con-
clusion." Special Detective Mason
would make no comment on the
result of this inquiry, but it was an-
nounced unofficially that the lead
had proved of little value.

Detective Mason also questioned
Miss Florence North, at one time
attorney for Charlotte Mills, in re-
gard to the letters and diary of
the slain woman which she sold to
a newspaper. It was said they
arrived at "no satisfactory under-
standing."

Timothy N. Pfeiffer, attorney for
Mrs. Hall, has questioned several
neighbors of Mrs. Jane Gibson, the
State's asserted eyewitness, in an
effort to learn more fully her
movements on the night of Sep-
tember 14. He took this step after
it was reported that the authorities
placed little value on the affidavit
obtained by him from Mrs. Nellie
Russell, stating that Mrs. Gibson
was at her home at the hour she
said she witnessed the murder.

MIDDLE WEST NEWS IN BRIEF

MINNEAPOLIS
MINNEAPOLIS, Nov. 15.—Sev-
eral firms interested in standing
timber in Northern Minnesota have
formed the Wailes Forest Protec-
tive Association with the object
of establishing a fire-fighting or-
ganization. To protect the timber in
fourteen townships in Lake coun-
ty a high steel lookout tower has
been erected, emergency fire roads
have been cut and a network of
telephone wires will connect all the
lumber camps in the section.

Nick Bayuk of Park addition
brought to Hibbing a quantity of
wild strawberries he had picked in
a field near his home. To find
ripe berries of any kind at this
season of the year is considered a
record for Northern Minnesota.

ST. PAUL
ST. PAUL, Nov. 15.—Relief from
the freight car shortage from
which the Northwest is suffering
acutely, is assured, executives of
several lines centered in the Twin
Cities said yesterday. Eastern lines
will rush from 500 to 1000 cars in-
to this territory daily until the
emergency is passed.

Word from Pipestone says that
section of the State is in the grip
of its first snowstorm of the sea-
son.

Miss Georgiana Burns, 489 Mar-
shall avenue, has left for Los An-
geles, where she will spend the
winter.

DENVER
DENVER (Col.) Nov. 15.—The
ending of the 1922 fire danger sea-
son in Colorado's fifteen national
forests was announced yesterday by
district officials of the Forestry
Service here. Officials also said that
with the continuance of the cur-
rent snowfall through the winter
months there will be an abundance
of irrigation next spring and sum-
mer.

Mrs. Sarah Cooper, 78, wife of
C. A. Cooper of Silverton, and with
her husband, pioneer residents of
southwestern Colorado, is dead
here from a complication of dis-
eases.

MILWAUKEE
MILWAUKEE (Wis.) Nov. 15.—
Word from Wisconsin Rapids says
an open fall with no cold weather
until late December is the predic-
tion of Wood County Indians, who
base their forecasts principally up-
on the movements of the stars. The
red men assert that the dipper is
exceptionally slow in its turning
movement this season and that this
is an unfailing sign of a long con-
tinuance of warm weather.

According to Bureau of Fisheries
reports from Le Crosse, the upper
Mississippi has been laden with

OMAHA

OMAHA, Nov. 15.—Western Ne-
braska today is digging itself out
of snowdrifts according to reports
at railroad terminals at Lincoln.
Train service is crippled by five
feet of snow on the Burlington
tracks between Farwell and Loop
City.

During the past week Lodge Pole
received a varied weather program.
In one day it rained, hailed and a
tornado swept the vicinity, not do-
ing much damage. Then the next
day it snowed and the wind blew a
heavy gale.

Word was received last night of
the death in Tampa, Fla., of Wil-
liam L. Stark, former Congress-
man from Nebraska. His home
was at Aurora. He moved to Flori-
da several years ago on account of
ill health.

Reports from the northwest
counties of South Dakota say the
snow is six feet deep in many
places. Further south there has
been heavy rain.

DES MOINES

DES MOINES (Iowa) Nov. 15.—
Mr. and Mrs. Frank W. Goodness
and little daughter Venetta re-
turned today to their home at
Storm Lake from a hospital at
Albion where they have been re-
covering from injuries inflicted by
a bear at West Bend three weeks
ago.

Iowa's 1922 corn crop will exceed
the 1921 crop by 11,000,000
bushels, according to the latest
estimate of the yield compiled by
C. F. Carle, agricultural statisti-
cian for the State and Federal Crop
Reporting Service.

Sponsored by the Civic League
of Keokuk, which was the first to
propose trees as memorials to the
soldiers and which had planted
and is caring for more than eighty
trees in a little park on the river
front at Keokuk, plans are being
made to build a real park on the
river front here and to call it
Victory Park.

INDIANAPOLIS

INDIANAPOLIS, Nov. 15.—
Linked so closely through fifty
years of married life that she was
unable to live without him, Mrs.
Angela De Witte, 74, died of a
broken heart today. She was her
husband's death two weeks ago. The
aged man clung to his wife until
the last moments of his life, marked
the exact time they were married
fifty years before, then fell back
dead.

John G. Hoffman, 74, pioneer
farmer and one of the wealthiest
land-owners in Northern Indiana,
is dead at his home in Hobart.

DETROIT

DETROIT (Mich.) Nov. 15.—
The third hotel project for Detroit
to be announced in as many days
came to light with a statement
from E. S. Jackson, president of
Jackson, Platt, & Co.,
investment bankers, that his firm,
in conjunction with Frank E. Mil-
ler, real estate man, has been car-
rying on negotiations with
Eastern interests for a hotel to
cost \$10,000,000.

Suits for divorce, custody of
their two children and a division
of property worth more than
\$1,000,000 were filed at Pontiac by
Mrs. Susan Bayley against Frank
J. Bayley, Detroit music dealer
and real estate operator.

ST. LOUIS

ST. LOUIS (Mo.) Nov. 15.—
Judge William N. Evans, member
of the bench in the Twentieth Ju-
dicial Circuit for twenty years and
former chairman of the Missouri
Democratic State Committee, is
dead at his home here for Plains.
The Travelers Protective Asso-
ciation of America is planning the
erection of a \$1,000,000 office
building here. A committee is
now inspecting valuable sites.

AKRON

AKRON (O.) Nov. 15.—To
find schoolboys between the ages
of 15 and 17 for 2000 part-time
jobs here, a junior department
may be opened by the State-City
Free Employment Bureau.

Plans are being made, accord-
ing to Mrs. Chris Franz, for the
building of a Daughters of the
American Revolution Chapter
House in Akron. Mrs. Franz is
chairman of a committee which is
negotiating for a site for the pro-
posed house.

Dirt has started flying for Cleve-
land's new \$4,000,000 public li-
brary building to be erected at
Superior avenue, N. E. and East
Third street, as a unit in the city's
group plan.

SMOKE SCREEN OVER BUSINESS

Situation Seen Through Gas-Charged Atmosphere

Politics More or Less of a Mess; Money Rates

Merchant and Manufacturer Have Inning Now

BY C. B. EVANS
 (EXCLUSIVE DISPATCH)
 CHICAGO, Nov. 15.—There is no doubt that business is large and growing, but one might make up a cluster of facts and conditions which, while in the main attractive, would have some bad spots in it, and the thing would not be an altogether beautiful bouquet. This is the view taken by men of long experience in business and who are in a position to see many things that the ordinary observer does not take into account.

The railroad furnish a good deal of evidence of what is going on. They have a larger aggregate of traffic awaiting them than ever before, but they are far behind in moving it and will be for a long time. They still have on the marks of the war and, even more conspicuous, the effect of two recent strikes, while the manufacturers of equipment are still embarrassed to some extent by shortages or prospective shortages of coal or insufficient labor.

In addition, the political cloud hangs low, and we know not the quality of the lightning it contains or whether there may not be a big explosion. The chances are that the opinions and purposes of the legislators will so antagonize each other that we shall have a neutral result. Even during the special session, which has already been called, the effect of the election for members of the next Congress will be felt, for every politician is looking to the voice of the people and there is quite a mixture of Socialistic and anarchistic gas in the atmosphere.

EUROPE UNCERTAIN
 Europe, we always have with us, and while we know its conduct will be unfavorable to spend finance and the trade of the world, we do not know just which member of that family is going to make trouble or just what kind of trouble she will make. Interest centers on Turkey, but the Russia bear is showing his claws and the allies are clanking each other as far as they dare.

These are aspects of affairs toward which the heavy men of business are directing their attention. The stock speculators see all this and that is why they are selling. The market got overbought while these conditions were forming themselves and thus became an easy problem for those who had long been designing to pick off the high price.

It is not altogether the money market that has caused the decline in securities, though large quantities of money have been moved from the centers to the country districts, and the brokers have overbought. There is nothing suggestive of a strain, and the common expectation is that

MONDAY'S FOREIGN TRADE RECORD

Compiled by the Trade Statistics Department, Los Angeles Chamber of Commerce.

Country	Value
From Mexico	\$1,200,000
From Canada	\$800,000
From Europe	\$1,500,000
From Asia	\$1,000,000
From Australia	\$500,000
From South America	\$700,000
From Africa	\$300,000
From Oceania	\$200,000
Total	\$6,200,000

rates will be lower after the January disbursements are made.

BULLS HAVE THEIR DAY
 It is nevertheless true that the absorption of funds in creative and distributive activities is a continuing influence on investors and speculators who look forward a period of months. Cutting up time into sections appropriated to various interests, we find that the bull absorption in creative and distributive activities is a continuing influence on investors and speculators who look forward a period of months. Cutting up time into sections appropriated to various interests, we find that the bull absorption in creative and distributive activities is a continuing influence on investors and speculators who look forward a period of months.

NEW STOCK BASIS
 One sees in Chicago many speculators who are holding their stocks, or even buying more, on the basis of this improvement in business. It is a case of the complaints of a leading house in this city that its customers have not held under the leadership of its senior partner, who has let go everything that he did not consider a permanent investment. The speculators take the ground that this decline, while a large and general one, is a mere hiccup in the upward rush of trade and that the corporations will show gains in earnings in the near future.

WALL STREET NEWS
 BY MONITOR
 (EXCLUSIVE DISPATCH)
 NEW YORK, Nov. 15.—Stockholders of National Sugar have ratified the proposed increase in capital stock from \$10,000,000 to \$15,000,000. The extra \$5 per cent will be distributed in the form of a stock dividend on December 1.

CONSOLIDATED GAS
 Consolidated Gas opened with an overnight break of more than three points following announcement of the recapitalization plan. Later in the day, however, the stock firmers, as traders began to realize that this new plan was not nearly so bullish as it appeared on the surface. The sale of the new common will be worked out by the retirement of the \$70,000,000 bonds which will relieve the company of a heavy annual interest charge. In the street, there is a general expectation of a declaration of a \$5 dividend on the new stock.

LAYING DOWN THE LAW
 The decision rendered in the United States court in Ohio in the case of the Franklin Sugar Refining Company of Philadelphia against a prominent firm of wholesale grocers in Dayton is of decided interest to the sugar trade. The Franklin, which is a subsidiary of the American, was suing to force payment of a repudiated sugar contract made around the high prices obtaining in 1920. The court decided that the contract was valid and that the wholesale grocers should pay the difference between 22 1/2 cents the contract price, and the price quoted in June, 1921, at which time the contract was repudiated. There are several smaller cases pending in the courts.

OIL SURPLUS SHIRKS
 Affairs in the oil industry are again occupying the attention of Wall street to a large extent, and the consistent inroads which have been made upon the accumulated surplus of crude oil constitute a very bullish argument on the energy situation. For instance, eastern pipe-line stocks of crude oil decreased nearly 450,000 barrels during October. This was due to a large increase in deliveries rather than reduction in output. At the same time the oil companies are in the market for larger amounts of crude oil and the tremendous consumption of gasoline at the present time is making for a drain on the crude oil markets which is bound to continue as a real factor in the market. Most of the new oil production developed during the last several months has been heavy stock which shows a very small gasoline

STEEL STOCKS
 In some quarters there is an inclination to believe that the failure of the big independent steel merger this summer has caused an unreasonable amount of pessimism in regard to the stocks of the companies which figured in that proposition. For instance, Midvale is selling in new low ground for the year, while other stocks which have been under pressure consistently since the Federal Trade Commission called off the "three company" merger, are also weak. Some of the selling of these stocks can be ascribed to the difficulties under which the independent steel companies were operating during the worst of the strike period. Now that labor troubles are settled for the time being, there is an inclination to consider the possibilities of the independent steel companies with calculation based upon present conditions and prospects for the future.

Two Attractive Issues

ending June 30, 1922.

We are offering an issue of first lien and refunding mortgage bonds which are subject only to \$3,386,000 non-callable prior liens. The property has been appraised at over \$6,000,000. On the basis of 6.35% yield these bonds are uncommonly attractive.

Another issue of exceptional merit, of which a few bonds of certain maturities are still available, is that of the Fifth Street Building—the new home of the Farris-Walker Fifth Street Store. These bonds are thoroughly secured and, on the basis of present prices, yield 6.40%.

Descriptive circulars concerning either or both of these issues will be mailed upon request. Call, write, or telephone Bdw. 75.

BUSINESS NEWS OF BUSY MARTS

Bulls and Bears Differ Over Market Trends

New Certificates for General Petroleum Ready

Castlemen to Meet; Outlook in India; Rail Debt

Present backing and filling in the stock market has elicited considerable pessimistic comment from traders of bearish proclivities, and predictions are frequent that the bull market has reached its peak, and that the long downward course is now in progress. Eastern market analysts are of the opposite opinion, however, as is illustrated by recent advice received by the statistical department of A. W. Coote, Los Angeles brokerage firm.

In every case, the trained observers of market actions reiterate their previously expressed opinions that the underlying trend is upward and the long term movement will not be completed until some time in 1923. The uncertainty in Europe caused by the Turkish situation, the wrangles between France and England over German reparations payments, and the political upheaval in Great Britain has been a principal factor in the unsettled condition of the stock market, and from a domestic standpoint, the late reaction against the Republican party and the heavy amount of speculative commitments in the market itself have added their quota to the side of the bears. These obvious conditions have induced a large number of holders to throw their securities on the market and take their profits, and as a result, prices have sagged heavily. The Dow Jones averages for twenty industrial stocks are now 92.61, or 2.83 below the year high of 103.50 reached on October 14. The average of twenty rails has declined 2.99 from the year high of 81.59, now standing at 78.60.

These disquieting reactions have discouraged many participants in the market, but, according to authoritative commentators, the existing depressing factors are entirely external, and have no effect on the basic conditions of the market. The money and credit situation remains sound; public confidence in better times is returning, and unemployment is at a minimum.

Freight car loadings are coming into recognition as one of the most reliable barometers of business, and as the stock market forecasts the business conditions, students of the market are devoting considerable space to this index. Latest available reports of loadings of revenue freight for the week ending October 28 show that shipments are now materially ahead of 1920 records, a year in which traffic was at its height. This improvement indicates that wholesale and retail merchants are buying goods from the manufacturers in substantial volumes and that the manufacturers are purchasing large quantities of raw materials to satisfy the demand for finished goods.

The Southwestern district, of which Los Angeles is the recognized center, makes the best showing for the week ended October 28, reporting loadings 111 per cent of 1920. The Central West is second with 110 per cent, and is closely followed by the Northwestern, Eastern and Allegheny districts.

Grain loadings are the greatest part of the shipments, amounting to 132 per cent of 1920. Live stock takes second place with 123 per cent and miscellaneous shipments are third with 111 per cent. Less than car lot merchandise and forest products follow, both being above 1920 figures.

Pig iron production is creeping upward after the setback received during the strike period, and crops are generally of good proportions. Both of these indices are recognized as additional evidences of the continued advance of the stock market.

NEW CERTIFICATES
Relative to the exchange of the old stock of the General Petroleum Company of the par value of \$100 for the new stock with a par of \$25, which was authorized at the annual meeting of the stockholders held September 14, the following letter has been mailed to all (Continued on Twelfth Page)

CALIFORNIA CALLS NOT RESISTED

East Turns West; Trip to Mexico City Planned; Chicago Summary

(EXCLUSIVE DISPATCH)

CHICAGO, Nov. 15.—(The Times.) The question of the trip to Mexico City, which has been the subject of much discussion in the past few weeks, has been decided in favor of the trip. The trip will be made in the near future.

After the final session of the Southern California representative business men from Los Angeles, the trip to Mexico City, the largest aggregation of the west this year, is now being organized. The trip will be made in the near future.

California and the Pacific Coast have been the subject of much discussion in the past few weeks. The trip to Mexico City, the largest aggregation of the west this year, is now being organized. The trip will be made in the near future.

Speculators on Stock Market Seek Bargains
(EXCLUSIVE DISPATCH)
NEW YORK, Nov. 15.—Speculators by means of the stock exchange today were in the mood of seeking bargains. The market was generally weak, and speculators were looking for opportunities to buy at low prices.

CALIFORNIA DRIED FRUIT
(BY A. P. HIGGINS)
NEW YORK, Nov. 15.—(The Times.) The market was generally weak today, and speculators were looking for opportunities to buy at low prices. The market was generally weak, and speculators were looking for opportunities to buy at low prices.

ONE BANKER'S VIEW
W. T. Dinsmore, vice-president of the Security Savings Bank of Riverside, said yesterday that rising prices, increasing demand for commercial loans, labor scarcity.

THE WEST TOMORROW
A well-known eastern financial writer says: "The greatest achievements of tomorrow in this country will be accomplished in the West. This is laying down a proposition of fact which is rapidly passing into the axiomatic. The advance of the West in the financial and investment world has been so rapid that eastern financiers were unable, for a time, to follow the trend or to believe it even after its import had been borne in upon them. The recent convention of investment bankers held at Del Monte has had no little effect in bringing them to realization of the actualities, and every visit by such men as Dr. Benjamin Anderson of the Chase National, Valued observers and analysts, have impressed more definitely upon the East the circumstance that the Pacific Slope is no longer an unknown quantity. The vision accurately caught by the writer quoted: 'The greatest achievements of tomorrow in this country will be accomplished in the West.'

CALIFORNIA CROPS
The crop year just closing in California has proved pleasing to growers of the actualities, and vineyardists by early rains and car shortages, and the overabundance of produce moved and bankers in the country districts are making encouraging reports. Heavy rains have caused some damage to the rice crop in the Sacramento Valley, but early plantings were safely harvested.

BUSINESS BAROMETER
Another barometer of increasing business is hung in the office of the collector of internal revenue, in spite of drastic reductions in rates under the new revenue act collections for October were only about \$3,000,000 less than for the corresponding month of 1921. This remarkable showing is due to the fact the 47,826 more separate returns were received in 1922 than in 1921 indicating increased business and the acquisition of new and desirable population. There was a general increase in all branches of constructive business and Collector Goodell points out that California and eleven other States are paying 55.33 per cent of the total income tax receipts of the government.

THIS WOULD FIX IT
The problems of government are relatively simple if it is necessary for Congress and the administration to do in order to suit the public clamor. In accordance with the Mining Congress Journal: Pass the soldier bonus. Cut the foreign debt. Establish free trade. Substantially reduce taxation. This would increase our annual national expenditure several billions of dollars and decrease the government's income a like amount is of course, a secondary consideration.

THE COUNTRY OVER
BOSTON, Nov. 15.—Building in New England is beginning to slow up, which is natural at this season of the year, but enough work is in progress to indicate larger operations than usual through the winter.

It is still difficult to obtain deliveries on heating and plumbing supplies and electric building construction for weeks ago will not be completed until after the turn of the year.

The cotton textile mills are running close to capacity except where labor troubles prevent. Wool and worsted manufacturers are increasing operations and shoe manufacturers are enjoying a normal business.

FORT WORTH (Tex.) Nov. 15. Citizens of the Southwest again are planning for skyscrapers, more apartment, larger hospitals and character building. Finances of these building projects has been assured from midwest and eastern financial centers.

DAILY TRADE TALK

American Investors Seek Foreign Outlet for Funds; Short Stories of Business

Approximately \$1,015,000,000

was invested in foreign countries by American citizens in the period of the government's fiscal year ended June 30, 1922, according to the Department of Commerce.

American dollars are helping finance and reconstruct private industry and governments in nearly every section of the world. They are building tramways in Europe, railroads in China and South America, docks and cotton mills in France, and waterworks systems in South Africa.

The Commerce Department's report represents the total of all loans offered and sold publicly in the United States for foreign governments and private industrial and commercial organizations with foreign citizenship. It shows that the every city of the world is being financed to some extent by American investors.

Among the cities whose bonds are held by Americans are Paris, Montreal, Bern, Prague, Vienna and Rio de Janeiro.

Before the United States entered the war almost all these securities had been bought back by America. Then American money in large amounts began flowing abroad for investment.

In 1918 approximately \$997,000,000 was invested abroad, and in 1919 about \$725,000,000. The following year the total was \$855,000,000 and in 1921 it grew to \$1,015,000,000.

Rate of investment in the pre-war period is indicated by 1905, when \$145,000,000 went abroad.

DAY IN REVIEW
The "street" found as much to interest its habits yesterday in the new dispatches as in those of the day before, with market trends and quotations.

The resignation of the Birch Committee following refusal of the Socialist ministry to participate in a coalition ministry that included the so-called People's party, was a source of discussion with special reference to its probable effect upon the value of the mark, reparations and general financial conditions.

A group of international bankers headed by J. P. Morgan met in Paris as a result of which it is hoped that a comprehensive plan for the world's financial affairs will be evolved by means of which foreign exchange may be stabilized and international business put on a relatively simple basis.

Senator Newberry is to resign and this reopens some interesting political problems in Michigan. In accordance with the Mining Congress Journal: Pass the soldier bonus. Cut the foreign debt. Establish free trade. Substantially reduce taxation.

It is still difficult to obtain deliveries on heating and plumbing supplies and electric building construction for weeks ago will not be completed until after the turn of the year.

The cotton textile mills are running close to capacity except where labor troubles prevent. Wool and worsted manufacturers are increasing operations and shoe manufacturers are enjoying a normal business.

FORT WORTH (Tex.) Nov. 15. Citizens of the Southwest again are planning for skyscrapers, more apartment, larger hospitals and character building. Finances of these building projects has been assured from midwest and eastern financial centers.

A Diversified Investment of \$5000

To obtain diversification as to industry, geographical location, maturity, interest rates and type of security, we suggest as an example for the investment of \$5000 the following recommended securities taken from our list today.

\$1000 in Southern Counties Gas Company 5 1/2%, due 1928. Priced to yield 6%.

\$1000 in San Diego County Water Company 6%, due 1928. Priced to yield 6.20%.

\$1000 in Louisville Gas and Electric Company 6%, due 1928. Priced to yield 6.60%.

\$1000 in Sutter Basin Company 6%, due 1927. Priced to yield 6.15%.

\$1000 in Pacific Power & Light Company 7% Preferred. Priced to yield 7%.

Approximate Total Investment—\$4800
Plus Accrued Interest

Average Yield—6.20%

LOS ANGELES EXCHANGE

Inspired by news that shipments of ore would begin soon at the rate of twenty-five tons daily, an animated market in Oatman United featured the activities of the Los Angeles Stock Exchange yesterday, with a gain of 2 1/2 cents resulting on a closing price of 2 1/4.

The stock sold up to 25 during the day, but weakened slightly at the close. Other stocks were comparatively inactive.

A 2-point gain was marked up by General Petroleum on a final price of 17. Union Oil Associates acquired 1 point, selling at the close at 18 1/2 and U. S. Royalties completed the day at 37, off 1/2 cent.

Outside of Oatman United the mining list was reactionary. Telluride, 1st, declined 1/2 point, while Virginia Louise was off 1/4 at 1 1/2 cents and Candelaria lost 1 cent on a close of 33. Simon Silver sold at 3 1/2.

Los Angeles Investment gained 3 cents during the day, selling at 10 1/2. Rubber was quoted at 73 and Southern California Edison common 108 1/4.

Following are the closing quotations and sales:

THOMAS SINGS
FOR KHJ FANSProgram Included Numerous
Vocal NumbersRinkler's Southern Six is
Line FeatureMme. de Sadosko-Pittard,
Piano Soloist

Angelenos with receiving sets, or who had access to radio loud speakers, had the opportunity to hear John Charles Thomas, baritone, in advance of his appearance tomorrow night in a concert at the Philharmonic Auditorium, when he sings for KHJ last night. Listeners in the Southland, in particular, and those scattered over the broad expanse of the continent in general, were fortunate indeed to hear him.

He sang four songs, "Sweetheart" from "Maytime," "Tommy Lee," by Marguerite; "Danny Boy," by Walter Damrosch, and "Swanee River," by George Gershwin. While John Charles Thomas's voice is a baritone, his quality actually recalls Caruso's in the matter of resonance with richness. Likewise, his art recalls at times the superb amplitude of Caruso and the finesse of Edward Clegg.

His art has grown in the last few years until it bears eloquent testimony to the earnestness of his study. He was accompanied by William Janaschek.

INSTRUMENTAL NUMBERS
Aside from Mr. Thomas's songs, last night's first broadcast period was strictly instrumental. Rinkler's Southern Six, a musical organization which was broadcast Tuesday night in an impromptu fashion, played a return engagement last night. So insistent were the radio folk that they hear this group of musical troubadours again as soon as possible, that KHJ took cognizance of the request and hit while the iron was hot, giving its inviolable audience, which numbers thousands throughout the country, a variety of music last night which demanded bodily rhythm.

This sextet, newly arrived in Los Angeles from Chicago, puts real pep into its playing—pep also in body movements—but the latter, of course, cannot be broadcast, although it is safe to assume that the listener-in is prompted by the same motives which the syncretized strains of Rinkler's Southern Six engenders in them as they play. Reports coming to the Times radio department yesterday following their appearance the night before indicate that their musical interpretations found much favor generally.

FLUTE SOLOIST AGAIN
Jay Pione, flute soloist, who assisted in the opening program of RADIO One-Step Amplifier \$18.50 For Crystal Set No Storage Battery Required. The Radio Stores Co. 646 S. Spring Near 4th

Here's Real Enjoyment
As You Go—

There are dozens of things to do aboard the comfortable Southern Pacific trains.

Some travelers enjoy a game of cards. Others find a quiet spot for reading or meditation.

Club and observation cars furnish a place to loaf comfortably or a chance to enjoy the fresh breeze and the scenic beauties you pass.

Drawing rooms and compartments provide privacy which many men use for completing important work.

KHJ when it made its debut as a 500-watt Class B station, was heard again last night in three excellent solos—"Nocturne in F Sharp Major," by Chopin; "Viola," by Christian; and "Valse," by Chopin. The flute carries well by radio, and when actuated by the skill and charming musical conception of Mr. Pione, this type of music carries an appeal which is far-reaching.

Mme. Sophia de Sadosko-Pittard, pianist, recently in America from India and who has previously been heard on KHJ programs, favored again last night with two piano solos—"Love Song," by Liszt, and "Grande Polonaise," by Chopin. Mme. Pittard has excellent technique and plays with masterful sense of proportions and an artistic touch which gives her selections a degree of charm for which every pianist strives.

CHILDREN'S HALF HOUR
During the children's half-hour period, from 7 to 7:30 last night, Capt. Christy Leitch, baritone, accompanied by Betty La Barca, furnished the musical setting for "Uncle John's bedtime story, with three very pleasing numbers, which were "Danny Boy," by Weatherly; "Give Me Your Love," by Ralph Seymour; and "Smilin' Through," by Arthur Penn. Capt. Leitch has a voice of rich resonance and knows how to use it to advantage, last night being no exception.

Five songs, each carrying appeal and charm, made up the afternoon musical program from KHJ yesterday. These songs, all excellently chosen, coupled with the superb lyric soprano voice of Margaret Stroufe, seemed clothed in new meaning. Among the selections were "Will o' the Wisp," by Sprague; "Songs My Mother Taught Me," by Dvorak; "I Passed by Your Window," by Brube; "Deep in the Heart of You," and "Her Dream," Miss Stroufe was accompanied by Bernardette Condon, who also played a piano solo by request, "Berceuse," by Chopin.

BAZAAR AT HOTEL
The daughters of the British Empire in Southern California are planning to make their ball and bazaar at the Alexandria next Saturday evening a gala affair. Proceeds will be devoted, announced last night, to the building fund of an old people's home. Mrs. W. C. Poussette and Mrs. Roderick Scott are in charge.

Delegates to Paramount
Distribution Convention
Scheduled to Parade

A street parade of motion-picture notables will greet the incoming delegates to the annual fall convention of the department of distribution, Paramount Pictures, when they assemble here during the week of the 20th inst. Three high Paramount officials, Adolph Zukor, president of the Famous Players-Lasky Corporation; Jesse L. Lasky, first vice-president; and S. R. Kent, head of the department of distribution, are expected to attend.

In honor of them and other delegates assembled from all over the United States and Canada, a group of picture stars, including Gloria Swanson, Agnes Ayres, Pola Negri and Jack Holt, will meet the train at the Santa Fe station and accompany the delegates by motor through the downtown district to the office of the Famous Players-Lasky Corporation, 224 South Olive street, thence to Hollywood and back to the Ambassador, which is to be convention headquarters. The parade will pass up Broadway from First to Twelfth street.

Chief of Police Oaks will act as grand marshal. All local theaters featuring Paramount pictures will be represented.

The visiting film salesmen are to be conducted through the West Coast Paramount studio so that they may see the actual production methods employed by the Paramount organization. Visits will be made to the current productions of Cecil B. De Mille, George Fitzmaurice, Sam Wood and James Cruze.

No Attention to Orders for
Walkout

"Nobody expected it would," was the succinct reply of General Manager I. L. Hibbard of the local Santa Fe Railway offices yesterday, when asked whether the strike call being issued to machinists on the Santa Fe had materialized. The strike was called for yesterday in circular letters sent out by W. S. Patterson, secretary-treasurer of the machinists' union of the Santa Fe.

No attention is being paid to the order, however, by any of the Santa Fe employees, according to officials of the road, and reports from various points on the system.

Topeka reports that although the strike letter was received by men employed in the Santa Fe shops there, not one walked out. The same news comes from Albuquerque.

Although Patterson is an official of the Santa Fe Machinists' Union, such an organization, he said, has no name only, said officials of the road. Since the July 1 strike the Santa Fe has not recognized the old shopcraft unions and several months ago the employees organized new craft associations which are in no way associated with the old unions, it was said.

South Broadway Concern
Celebrates Completion of
Improvements

BY OLIVE GRAY

Celebrating the completion of additions and improvements to its store, the Parmelee-Dohrman Company, 438 South Broadway, kept open house yesterday. Flowery music, softly shaded lamps and the rare wares for which this store is famed, made of the six floors a veritable fairyland.

The mezzanine floor was devoted to fine table-wares, imported and domestic, scores of tables, with service laid for every possible occasion, attracted throngs of admirers. One floor was given over to kitchen appliances, and here one was impressed with the many new labor-saving devices recently brought out.

This department was visited during the day by a number of classes in domestic science, from local public and private schools. Each guest was presented with a bouquet of flowers, in token of appreciation of the progress of the store, since its beginning, in 1878, when the public first began its patronage. The new establishment fully doubles the serving capacity of the Parmelee-Dohrman Company.

**SLAYER OF
POLICEMAN
BOUND OVER**

Isaac Wolfgang, Assorted
Radical, Must Face Trial
for Death of Dinmore

Isaac Wolfgang, alias Fred Edwards, arrested I.W.W. who shot and killed Policeman Oliver Dinmore on the morning of the 4th inst., was held to answer without bail on a charge of murder by Justice Channing Follett yesterday.

Wolfgang had been arrested by Dinmore for stealing two bottles of milk from a dairy woman, and shot the officer when the latter went to his room with him, where he said he had some money in a drawer. He was caught at the Santa Fe yards, where he was about to board a train for Pomona.

H. A. Rude, a night watchman who assisted in the arrest, was the principal witness. He said that on the way up the stairs to Wolfgang's room at 211 East Third street, the prisoner struggled in the officer's grasp and that Dinmore struck him two or three times with a blackjack on the head. Wolfgang reached in and took an automatic pistol from beneath some papers turned and shot Dinmore in the chest. Dinmore staggered and fell. Rude said he attempted to struggle with Wolfgang, but the latter broke away, dropped his weapon and sprang down the stairs. Rude then called for help.

Wolfgang had no counsel and offered no defense. The evidence was presented by Dep. Dist. Atty. Kilne.

WRONG

SOLVE YOUR GIFT PROBLEM

with these perfect
writing instruments

A problem presents difficulties. But there are no difficulties when you choose sensible gifts as EVERSHARP and WAHL PEN. Every one who writes wants them. EVERSHARP is the world's standard pen and there are 90 styles of WAHL PEN to match the designs on the 10,000,000 EVERSHARPS in use. Prices range from \$1 to \$50.

Every one who sees it covets the new WAHL PEN with its entire barrel of light and indestructible metal—gold or silver. The all-metal barrel cannot crack or break. It holds more ink than the old-fashioned thick and brittle hard-rubber barrel.

EVERSHARP, with the exclusive rifled tip that grips the lead, belongs on the desk and in the pocket of every man. Suspended from a ribbon or chain, EVERSHARP pleases the woman at home or in business.

Look over your gift list and give to all who received an EVERSHARP last Christmas, a WAHL PEN of the same design. The designs will match perfectly. Singly, or together, these two perfect gifts may be had in velvet-lined GIFT BOXES. See them at your dealer's.

safe equipment of the road, but

failed to give any specific instances.

Several of the conductors declared

that they would be afraid to go to

their homes in Los Angeles if they

did not strike.

DISORDERS DESCRIBED

Superintendent Christie said

that as a result of the strike of

the shop crafts on July 1, 208 men

had quit the employ of the com-

pany. Their places were taken by

others, guards were employed to

look after the property of the San-

ta Fe, and a stockade erected to

protect the strike-breakers. It

was necessary to have an officer

attend a strike-breaker when he

wanted to leave the stockade. The

witness detailed scenes of tumult

and disorder following the strike

of August 10, when such taunts as

"Where is your machine gun, Chris-

tie?" and "Scab?" were hurled

at Christie and the strike-breakers.

It was admitted by Judge Rush,

representing six of the defendants,

that the Santa Fe had a right to

employ guards to look after its

property.

Charles S. Rager, superintendent

of the Railway Mail Service, testi-

fied in regard to the mail train

passing through the stockade.

E. K. Bryan, cashier of the

Needles bank, testified that cor-

porations had passed through the

bank, signed by one of the defend-

ants, L. E. Woodbeck, for pay-

ments to show that the bank was

conducting the strike at

Needles. The object of this evi-

dence was to show that the Big

Four was financing the strike at

Needles from money that was

taken up in the form of a col-

lection.

EAGLES TO FETE

ORDER'S LEADER

Tonight Los Angeles Eagles

will join in a reception to Col.

Herbert Chynowski of San Fran-

cisco, Grand Marshal of the

order. The celebration will

be held at the clubhouse, 617

West Sixteenth street. A feature

of the program will be the in-

auguration of \$60 candidates, the

first group to be received into the

organization since the inauguration

recently of a membership cam-

paign.

Col. Chynowski, who has just re-

turned from an eastern tour in

the interest of the old-age pen-

sion system which the Eagles

throughout the nation are advo-

cating, is the third Californian to

be elected head of the order. The

others were the late Theodore

W. Rice, R. E. Goodell, now

Collector of Internal Revenue in

Los Angeles.

Following the initiation there

will be a banquet. The commit-

tee in charge consists of Fred

Frank, chairman, James G. Lowe,

Otto Emma, F. Sessua, Joseph

Fitzpatrick, James Bean and

Clarence B. Hamilton.

BURCH TRIAL HALTED

BY CLARK'S ILLNESS

The trial of Arthur C. Burch

for the asserted murder of J. Bel-

ton Kennedy was halted yester-

day by the illness of Dept. Dist-

rict Attorney Clark. Jurors and

witnesses were excused until this

morning.

While the ministers were await-

ing the call to the grand jury room,

the draft of a recall petition was

circulated among them. It gave

as reasons for the proposed recall

of Mr. Woolwine the assertions

that he was temperamentally un-

fit

PASTORS HEDGE;

WOOLWINE FIRM

(Continued from First Page)

retirement of the present District

Attorney from his office.

"We have noted his statement

in the press of his intention to re-

sign, and that this was reconsidered

because the announcement of the

recall movement would have forced

him to resign under fire. We there-

fore gladly withdraw all efforts to

recall the District Attorney so far

as we are concerned so that he may

proceed without embarrassment

with the resignation contemplated."

The statement was signed by

the Rev. James A. Francis, the

Rev. Ray C. Harker, the Rev.

Edgar F. Daugherty, Dean Wil-

liam MacCormack, the Rev. Gustav

A. Briegleb, the Rev. S. T. Mont-

gomery, the Rev. R. P. Shuler,

the Rev. Herbert Booth Smith and

Mrs. Dora Stearns. It was

stated that the Rev. E. E. Helms

and the Rev. J. Whitcomb

Brougher concurred in the state-

ment, but were not present at the

meeting, because of ministerial

duties.

WOOLWINE RETICENT

Although Dist-Atty. Woolwine

would make no formal reply to

the above statement, he is known

to hold to the opinion that the

rights of the ministers and others

as citizens were not questioned

when they were called before the

grand jury, but on the other hand

that by reason of their being

called it was shown they were not

above the law. He also stated

earlier in the day that the min-

isters were not summoned before

the grand jury for the purpose

of intimidation, but instead, they

gave them the opportunity of re-

porting their asserted knowledge

of any laxity in law enforcement

on the part of his office.

The District Attorney stated that

two letters written by Mr. Shuler

to W. C. Coburn, former Grand

Goblin of the Ku Klux Klan in

California, formed, in his opinion,

the genesis of the movement to

oust him from office. The letters,

which related to a law enforce-

ment meeting being conducted by

Mr. Shuler last April, showed a

friendly relation existing between

the former Klan chief and Mr.

Shuler.

SHULER BLAMED

It is contended by Woolwine

that a vigorous prosecution of the

Klan caused Mr. Shuler to become

his arch enemy, and that he firm-

ly believed that it was Mr. Shuler

who had fostered the movement to

recall him.

When confronted with the two

letters, Mr. Shuler admitted hav-

ing written them, but emphatic-

ly denied that Mr. Woolwine's ac-

tion in the matter of the Ingewood

raid and subsequent prosecution of

members of the Ku Klux Klan had

anything to do with the present

ouster proceedings.

"It's absurd," he declared, and

his opinion was seconded by all

the other ministers present.

While the ministers were await-

ing the call to the grand jury room,

the draft of a recall petition was

circulated among them. It gave

as reasons for the proposed recall

of Mr. Woolwine the assertions

that he was temperamentally un-

fit

for his present office, and that he

had not enforced the liquor laws

of the State.

CONFER WITH COURT

Immediately following the ap-

pearance of the Rev. Herbert Booth

Smith before the grand jury, the

body of ministers and Mrs. Stearns

adjourned to Judge Houser's pri-

vate office, where they were clos-

eted with the judge for approx-

imately fifteen minutes.

When they emerged they refused

to state where they were going or

what action they contemplated.

Judge Houser was equally reticent

as to the object of the visit of the

body to his office.

R. W. George of Whittier, fore-

man of the grand jury, announced

following the calling of the last

witness that the inquiry was ended

as far as the jury was concerned.

"We gave each and every one of

them a chance to tell us of one

specific act of misconduct on the

part of Mr. Woolwine in the ad-

ministration of the affairs of his

office. None of them could or

would cite any specific instance,

so the matter is ended so far as

we are concerned.

STATEMENTS DIFFER

Widely divergent statements

were given out as to what hap-

pened in the grand jury room. The

Rev. Mr. Shuler declared one of

the grand jurors intimated that he

had "lied," and the reply by call-

ing that person a "dirty yellow

cur." Three of the grand jurors

denied that any such exchange of

personalities took place during

the testimony of Mr. Shuler.

Mr. Briegleb stated they dis-

missed him several times before

he finally departed, but this was

also disputed by persons who

heard his testimony.

The ministers and Mrs. Stearns

assembled in the grand jury wait-

ing room at all times. While they

awaited the arrival of the District

Attorney they spent the time in

talking and telling jokes. The

Rev. Mr. Briegleb declared he

thought the whole matter one of

the "biggest jokes on record."

It was during the rendition of

the hymn, "Hold the Fort For I

Am Coming," that the District

Attorney, favored by Dep. Dist-

Atty. Keyes, entered the room. At

the moment, singing of the hymn

had progressed to the line

"The mighty host advancing, Satan

leading on." This was finished

while the District Attorney was

in the room.

Mr. Woolwine spoke to the as-

sembled members of the commit-

tee and his salutation was re-

turned by several. The District

Attorney then entered the grand

jury room, remained a few min-

utes, then emerged and proceeded

to his office.

As he came out of the room

Mr. Briegleb asked him to please

"hurry up" the proceedings.

ANDALS ARRIVE IN PASADENA FOR GREAT TROJAN BATTLE SATURDAY

STADIUM IS SCENE OF IDAHO WORKOUT TODAY

Idahoans Claim They Are Under Weight Handicap on Grid; Babe Brown is Best Bet

Mathews and his high-powered bunch of Idahoans arrived tonight on a much delayed and much blessed train of the Pacific, in preparation for the game with the University of Southern California, Saturday. The team piled up in the hotel, where they will stay, and practice daily in the stadium.

PENN STATE INVITATION IN EFFECT

Rumors Concerning Having Presidents Here New Year's Plain Bunk

PORTLAND (Or.) Nov. 15.—Dr. U. D. Duback, of Oregon Agricultural College, president of the Pacific Coast conference, today by long distance telephone from Corvallis, emphatically denied rumors that the conference would withdraw its invitation to Penn State to represent the East in the New Year's Day football game at Pasadena, and substitute Washington and Jefferson.

The Pacific Coast conference formally invited Penn State as a representative eastern collegiate football team to play at Pasadena New Year's Day against a representative Pacific Coast team to be selected later by the conference, said Dr. Duback. "Penn State has formally accepted the invitation. That settled it. The conference never at any time considered Washington and Jefferson and will not do so."

The cause of all the rumors, none of which contains one word of truth, seems to be that Penn State has lost a football game, its first in three years, since it was invited and accepted. What of it? Penn State may lose all of its remaining games and that will not affect the conference invitation in the least.

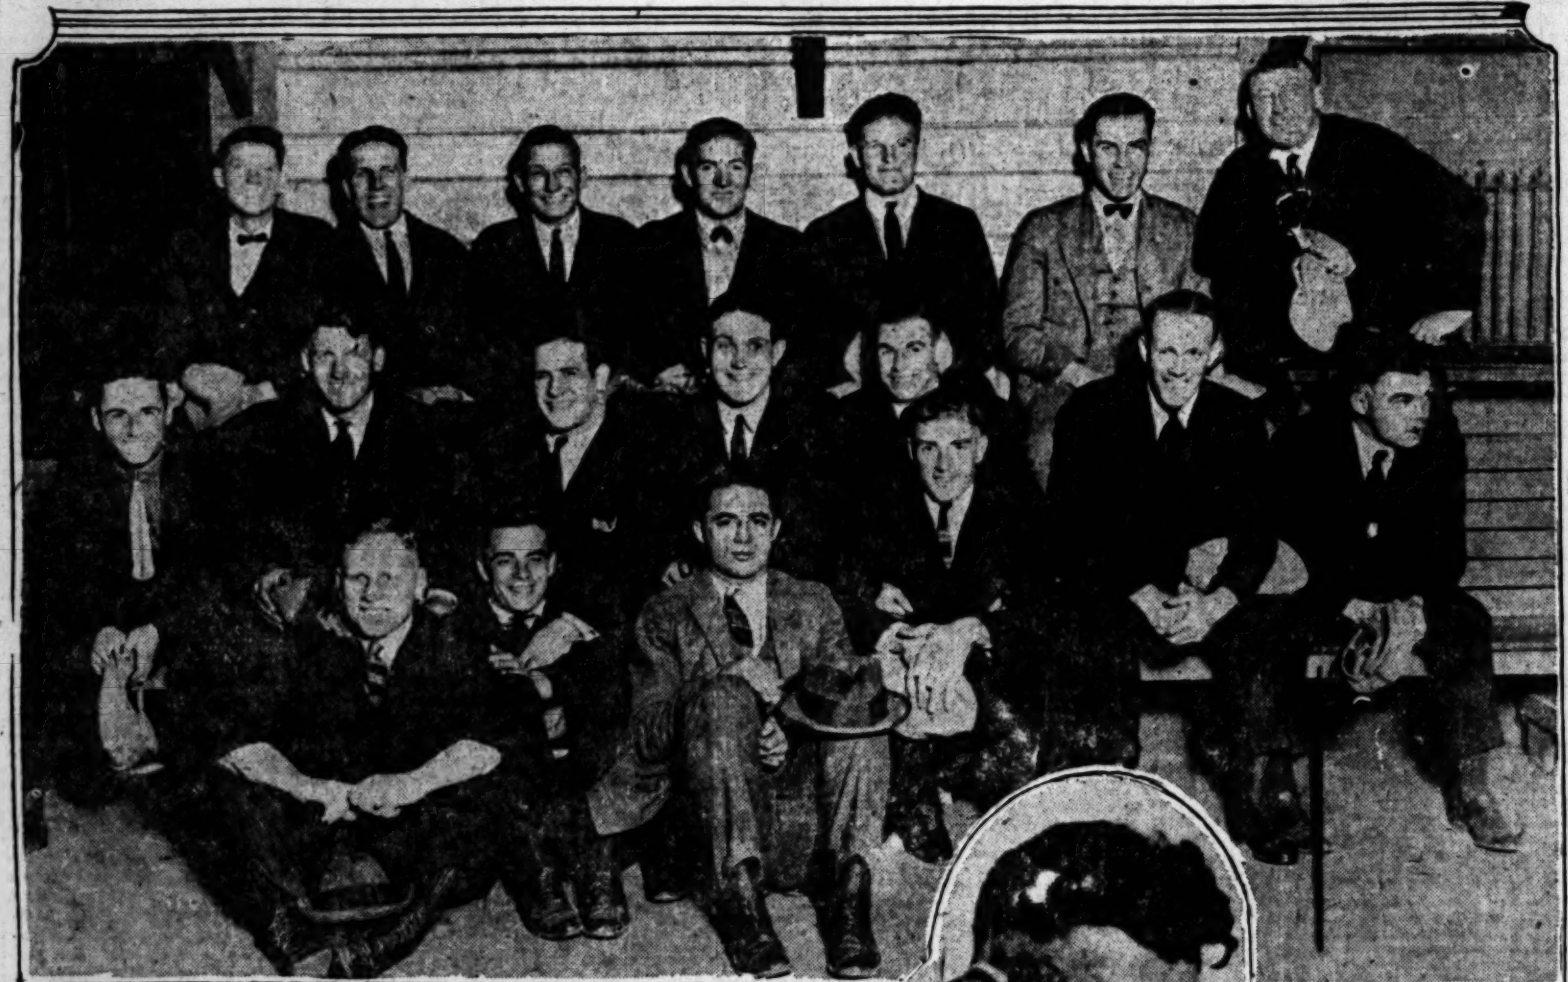

FAST GOLF FOR FANS AT CALIFORNIA CLUB

A spectacular finish featured a match play at golf between Fred Wright of the Flintridge Country Club and Everett Seaver of the Los Angeles Country Club against C. E. Buck and John McCall of the California Country Club Sunday afternoon, November 12, on the California Country Club course.

The game was tied on the seventeenth hole. Fred Wright untied the score with a long putt on the eighteenth, only to have it tied again by a still longer putt of forty feet by McCall. Darkness put an end to the contest with the score still even. The draw will be played off at some future date.

BIG BOXING CARNIVAL IS A SUCCESS

Jess Willard Shows Well Against Two Opponents at Holly Stadium

BY ED O'MALLEY

The all-star boxing show given under the auspices of the Assistance League of Southern California at the Hollywood Legion Stadium last night was an unqualified success both financially and artistically. The big arena was packed by boxing lovers from all walks of life, including a generous sprinkling of Los Angeles's upstartdom.

Jess Willard, the stellar attraction, sparred two rounds each with Tom Kennedy and Joe Bonda. Both of the ex-champion's opponents, although large men, looked small when facing him. Kennedy made much the better showing, swinging four or five hard rights smack to the jaw, but Willard's smile and good-naturedly and retailed mildly. He was quick on his feet and squared fast, giving one the idea that he is not far from being in fair fighting trim.

The bout between Dandy Dick Griffin and Eddie Macey, 118-pounders, was a sparker—in fact one of the fastest seen herabouts in some time. The lads gave a ripping good exhibition of mixed boxing and fighting, not an idle moment bobbing up in the four intense rounds. The battle was called a draw but belonged to Macey. He dashed into Griffin in the first two rounds, landing often and hard with a cutting left to the nose and a burst of a right uppercut, drawing the crimson.

In the third round Griffin tore loose and landed a few stinging rights that shook Eddie up considerably. Macey, however, in the final, waded into the Texan with fierce determination, poking a number of lefts to the nose and rights to the chin that staggered his man. So bewildered became Dick, that he missed three or four vicious rights to the face which clearly showed he was up in the air.

The other bouts resulted as follows: George Lavigne whipped Billie Ketchell, Jimmie Dime trounced Kid Wagner, Sailor Ashmore won over Joe Dunn, Spec Woods-Bud Soules a draw and Leonard Malory hung it on Willie O'Brien.

WINTER BALL NOT ALLOWED

SACRAMENTO, Nov. 15.—Major league baseball players cannot play in winter league teams in California or elsewhere, even though they receive no salary or other compensation, it has been held by Baseball Commissioner Landis, according to a telegram received today by City Manager Clyde L. Seavey of Sacramento.

These boys may be from Idaho but they're not potatoes. Here we have the team of the Idaho University which will attempt to do great physical and mental harm to the grid team of the University of Southern California next Saturday afternoon in the Pasadena stadium. The team on which the team arrived last night was four hours late, but the arrival was at least three days earlier than expected here. From left to right the men are as follows: Rear line, S. Breshears, Cobley, Benny Breshears, Neal, Kirshnick, Selgus, Stein, Middle line, Silvers, Goff, Brown (captain), Purdy, Vasser, Marker. Front line, Knudson, Kieffer, Kline Quinn. The inset is that of Carl Yokoh, terrible tackle who volleys and thunders on the left of the line.

MANY ENJOY AUTO SHOW

The thousands that visited the automobile show last night enjoyed the double pleasure of seeing the motor show and the "leading lights" of the motion picture world.

The stars of the silver screen lent their presence to the exhibit and the crowds that thronged the big four tents last night had more than their money's worth. The result of the evening's crowd as reported by Fred Cooh, that worthy custodian of the tickets and the money, was several thousand more auto show visitors than had previously visited the big display.

Tonight however, it is expected to be the record breaker for attendance figures, as the show is rapidly nearing its end and tens of thousands of Los Angeles motorists have not yet availed themselves of this opportunity to see the attractive exhibit of 1923 model motor cars, trucks and accessories. Every exhibitor is putting forth his best efforts to have the exhibits in spic and span shape for the showing today and tonight. A small army of janitors and car polishers was on the job at dawn this morning getting the cars shined and the floors cleaned in preparation for tonight.

SHOOTERS FLOCK TO GUN CLUB

Nearly Every Gunman of Note Will Stand by at Vernon Tournament

Nearly every trapshooter of note in the West will park his pet fowling piece in the racks of the Vernon Gun Club today for the preliminary shoot to the club's semiannual registered tournament. Today's practice event will be at 100 targets from sixteen yards with an optional pool of \$1.00. The preliminary shoot will give the gunners a chance to see just what condition they are in for the hard grind of 600 registered targets to be shot at for the next three days. Registered shooting will open tomorrow, starting promptly at 8:30.

FAIR ATHLETES FROWN ON MEN

BALTIMORE, Nov. 15.—Women's and girls' athletics in this country should be handled by women and not by the Amateur Athletic Union, the governing body of amateur athletics in this country, in the opinion of Dr. William Burdick of the Playgrounds Athletic League of Baltimore, an authority on physical education and recreation.

SCHAEFER AND COCHRAN WIN

Cue Champ Easily Disposes of Roger Conti

Young Juko Makes High Run of Tournament

Yank Ivory Shark Defeats Hagenlacher

NEW YORK, Nov. 15.—Young Jake Schaefer, holder of the world's 18.3 ball line billiard title, and Welker Cochran emerged victorious from the third day's play of the international championship billiard tournament held at the Pennsylvania Hotel here today. Schaefer defeated Roger Conti, the French one wizard, 500 to 471, while Erich Hagenlacher, the German ivory shark, fell before the billiard skill of Welker Cochran, 500 to 471.

Hagenlacher established a high run for the tourney in the afternoon match with a string of 175. However, in the evening contest Schaefer took away his honors by clicking the ivories for a run of 195.

The two games scheduled for tomorrow bring Edouard Horamann, the Belgian, against Erich Hagenlacher, German billiardist, in the afternoon affair. Welker Cochran and Willie Hoppe clash in the evening performance.

NEW YORK, Nov. 15.—Jake Schaefer appeared more like a champion as he won the bank for lead in the night contest. He got a bad bump on his third carom that compelled a number of difficult cushion shots. The sixth was a dazzling four-cushion effort that resulted in his assembling the globes on the rail at the head of the table on the next count. At 14 he missed the second object ball and retired. Roger Conti, the Frenchman, started from a good leave, but at five missed a drive as the cue ball lacked life to make count.

(Continued on Second Page)

Crowley Puts on Fast Show Friday Night

Frank Crowley, matchmaker extraordinary, has lined up a new boy for tomorrow's fight, Otto Wallace, who is making his debut in Los Angeles, is a product of De-ver. He comes to California with a long list of wins after his name. Although not counted in this list he has a record of putting up a stiff fight with Lew Tendler. His opponent will be popular Jimmy Sacco, a fast, hard-hitting baby, who will make things lively for Wallace.

Two sensational fighters have been signed up for the semi-wind-up. Sailor Willie Williams and Harry Smith will do some fancy stuff in their little set-to. Last Friday night their bout was the star-fight and they are expected to repeat again this Friday.

ONE O'CLOCK SATURDAY

Bullock's

"ONE O'CLOCK SATURDAY"

PHILLIPS JURY IS DEADLOCKED

Deliberates Eleven Hours Without Verdict

Vote Reported Ten to Two for Conviction

Defendant is Hopeful at Long Delay

(Continued from First Page)

not be heard. It may have been the issue of insanity—that Clara was insane and irresponsible at the time of the crime. It may have been that all jurors agreed Clara was guilty of the crime out while some jurors insisted on the death penalty, other sympathetic jurors recommended a life sentence. It may have been that some jurors believe Clara guilty of murder in the first degree while others believe she should be convicted only of second-degree murder or manslaughter. It may be that some are of the opinion that Clara told the truth when she testified that Peggy Caffee struck the fatal blow.

But whichever the issue may be, the jury was deadlocked last night. Fred A. Tremaine, father of Al-berta Meadows, was dumfounded at the failure of the jury to report back to the court.

EXPECTED QUICK VERDICT
He had expected the immediate return of a verdict of guilt. He restlessly paced the floor of the courtroom, and when Judge Houser emerged from his chambers at 5 p.m., Mr. Tremaine asked him:

"Judge, what do you think of this jury?"

The judge was startled. Then he laughed and replied over his shoulder:

"You'll have to ask the jury." (Armour L. Phillips, the husband of the defendant, and Mrs. Etta Jackson, her younger sister, remained until the courtroom lights were extinguished. Ole Weaver had returned to her home, but her place was taken by Victoria Cross, Clara's dancing chum in the gay Broadway chorus of other days. Clara remained at the County Jail.

CELEBRATES WEDDING
While the jury was determining her fate, Clara Phillips quietly celebrated her ninth wedding anniversary in the County Jail with her husband and two sisters.

Clara Weaver of Houston, Tex., became Mrs. A. L. Phillips on Nov. 18, 1913. Yesterday was her ninth wedding anniversary.

"There was just as much happiness back in 1913 when we were married as there is sadness now," Mrs. Phillips declared.

The jury retired for deliberation at 11 a.m. after the instructions of the court were read to them. These instructions took up an hour's time. Four of the instructions were constructed by the defense. They related to insanity as a defense plea.

Both prosecution and defense are confident of victory. Attorney Herrington, who in his argument declared Clara was a victim of epileptic insanity, that she did not commit the murder and that at the time of the crime she was in the throes of an epileptic seizure, stated that the jury could do nothing else but absolve her of any guilt or else find her not guilty by reason of insanity.

Dep. Dist. Atty. Fricke stated that the case against Clara Phillips is the most complete case of premeditated murder ever heard in the local courts and that a verdict for conviction will prove his statement.

CLARA NONCOMMITTAL
Clara was noncommittal, other than to remark she hoped to be acquitted. However, the strain of the trial showed itself plainly in Clara's conduct after the jury tired to the jury-room.

The defendant remained in the courtroom throughout the morning hours, a spectator of another trial minus the thrills of her own trial. At noon she was escorted back to the County Jail under a heavy guard where she remained throughout the afternoon.

Frequently she wept while impatiently awaiting word that the nine men and three women were ready to announce their decision.

The spectators, though remained in their chairs in the courtroom. They whiled away their time with knitting, reading, smoking cigarettes, eating peanuts and gossiping.

Precautionary steps to prevent any demonstration in the courtroom in the event a verdict of guilt should be returned were taken when ten special guards were sent to the courtroom by Sheriff Trager. One report reached the Sheriff's office that if Clara is found guilty an attempt will be made to kidnap her from her guards.

The jury was escorted to lunch at the Rostyn Hotel at 12:30 p.m. As the jurors entered the bus they were smiling and laughing amongst themselves, but none of their faces betrayed the thoughts or opinions that may have been lurking in their minds.

Public Hearing on Franchise Plea Monday

The City Council's Public Utilities Committee is expected to hold a public hearing Monday afternoon at 1:30 o'clock at the City Hall on the application of the Pacific Electric Railway for a freight-carrying franchise to serve the Westchester Electric Manufacturing Company and other industries on San Pedro street between Aliso and Ninth streets. The Chamber of Commerce has strongly recommended that this franchise be granted so that freight service can be given these industries. The freight carrying electric cars, if the franchise is granted, will be operated only at night.

GOING AFROUD FOR "COLOR"

Miss Florence Duke and Istalia Rhine applied yesterday for passports allowing them to visit China, Japan and other Far East countries. They expect to sail from Los Angeles Harbor on the West Iran. Both young women are local newspaper writers and they are going abroad for "color."

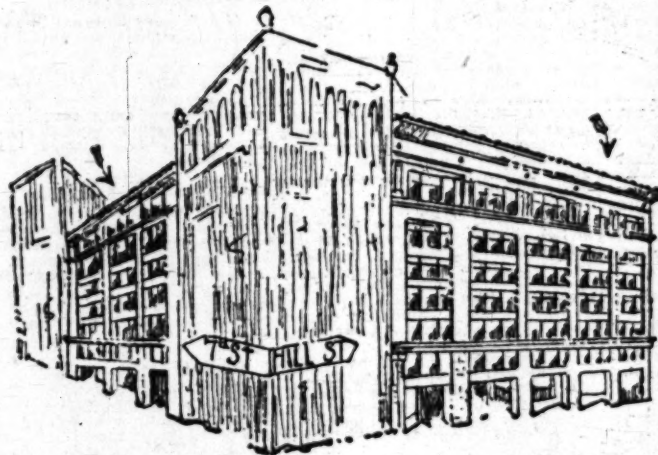

Goodman's
Department Store
7th and Hill

Opens Saturday

Declaration of Policy

- To build a business that shall be known for its unfaltering integrity
- to win and maintain the faith and esteem of employees as well as of patrons
- to enlarge the business in the same ratio as public confidence is won
- THAT is the ambition of Goodman's.
- To attain that goal it is realized that stocks must be confined to merchandise of unquestioned quality
- that the values offered must not be excelled elsewhere
- that the entire organization, from executives to messengers, must be courteous and conscientious
- that the service, from the moment a patron enters the doors until the purchases are delivered, must be prompt and accurate
- and, finally, that no transaction shall be considered closed until the patron is entirely satisfied.

Not Only How Well—But How Much

It is no longer necessary to tell women of the many advantages of doing their housework electrically.

That electrical appliances of standard make can accomplish household tasks quicker, better, and more economically than hand methods is now beyond question. But—just how much convenient service you may reasonably expect from your vacuum cleaner, washer, ironer, toaster, percolator, glow heater, etc., depends to a great extent upon the way your house is wired.

How many of your rooms have convenience outlets where you can connect your electrical appliances and floor lamps? Is your electrical system made up of standard materials, installed by competent workmen? Is it complete?

These are important questions to ask before you build, buy or rent a home.

You will find the right answer in the qualified electrical contractor—one who employs good workmanship, uses standard materials, and charges fair prices. Cut-rate contracting service is never economical. You seldom save more than one-half of one per cent—\$50.00 on a \$10,000.00 house—and you are likely to spend five times that amount later in replacing poor workmanship and sub-standard materials and supplying additional outlets and wall switches.

The Pacific States Electric Company, the largest distributor of electrical merchandise on the Pacific Coast, provides in its "check" seal a helpful guide both to quality in materials and appliances, and to the competence of the electrical contractor-dealer who sells and installs them.

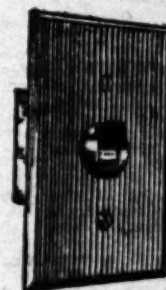

This seal identifies a complete line of standard electrical merchandise, chosen from the markets of the world, inspected and certified as standard. It is distributed through responsible contractor-dealers who are qualified in every way to give you the kind of service you have a right to expect.

The electrical appliances shown on this page, together with other standard electrical products, certified by the "check" seal, are described in our new booklet, "The Electrical How for Householders". You will enjoy this booklet, with its many practical suggestions for the convenient and economical utilization of electricity in your home. It may be obtained free from any electrical contractor or dealer displaying this seal.

WALKER DISH—thoroughly practical dish seven years and steadily thousands now in use. It with water supply and eliminates the housewife's It saves fully an hour a cleaned. You may safely and fragile china to the

WASHER—The one washer. On the market growing in popularity. can be directly connected drain pipes and practically most disagreeable task. day in time and is easily entrust your fine glass Walker. Has G-E motor.

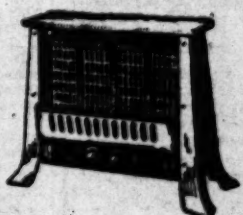

G-E TUMBLER SWITCHES—The G-E Tumbler switch is the latest device for controlling circuits, and stands up better than any other device made for a similar purpose. It is self-indicating—up and it's on, down and it's off. It can be operated with the arm or elbow should the hands be full and is supplied in both flush and surface types.

WAYNE ELECTRIC BELL RINGERS (TRANSFORMER)—

The Wayne bell-ringing transformer, a General Electric product, eliminates dry batteries. It is connected with the household light circuit and adjusts the current to the requirements of electric bell systems. Once installed the transformer functions continuously at a negligible cost to the owner.

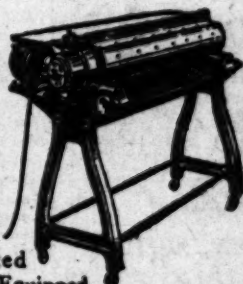

HOTPOINT RADIANT HEATER—A heater of the glowing coil, open fire-place type which satisfactorily supplements the permanent cold-weather heating installations. Replaceable heating units, encased in polished nickle steel reflectors which throw heat into the room. Built of pressed steel, black enameled; trimmed with highly polished nickel.

THOR ELECTRIC IRONER—

Does the average family ironing in about one-fifth the time it takes to do it by hand—and does it better. It handles everything from household linen to lingerie. The cost of current is about 5 cents an hour. No special skill is required to operate the Thor. The control is automatic and there is no complicated mechanism to get out of order. Equipped with G-E motor.

GENERAL ELECTRIC CO. TWIN CONVENIENCE OUTLETS—Provide a convenient outlet, facilitating the use of portable lamps, and furnishing convenient connections for vacuum cleaners, floor heater and other appliances. Made in the finest of the wiring industry without sacrificing the artistic. Finished in brushed brass or gold finish. Receives all standard

HOTPOINT HUGHES ELECTRIC WATER HEATER—Adapted for either storage or intermittent water heating. May be easily installed and does not require a special tank. Sheath wire heating unit transmits heat to water with 100% efficiency. Easily cleaned, solidly built—will last for years.

THE NEW HOT POINT WAFFLE IRON—The

new in delicious waffles, prepared electrically, without smoke or bother—right at the table. Equipped with double aluminum plates baking entire waffle at one time without "flipping." Heating units are enclosed sheath wire type. Convenient handles, hinges, etc. insure ease of operation and cleaning.

THOR ELECTRIC WASHING MACHINE—The

Thor washes everything from fine laces to grimy overalls without any rubbing. It does the week's washing in half the time required by hand methods and eliminates all the hard work of hand rubbing and rinsing. The Thor is scientifically constructed and solidly made. Always ready and seldom gets out of order. On the market 14 years. Over 750,000 now in use. Equipped with G-E motor.

Dentists are wonderful fellows

If your barber were to point out to you that you could save money by shaving yourself at home you would be afraid to go back to him again. You'd think he was crazy.

Yet your dentist, who has spent from four to twenty years or more in learning how to repair, clean, straighten or extract teeth or to replace lost teeth with crowns or plates, daily "throws away money" by cautioning his patients and teaching them how to preserve their teeth so his services will not be needed.

Give your dentist credit for his high sense of honor and duty and remember he has everything to lose and nothing to gain when he explains to you the virtues of

Rheumatism!
try Sloan's

Nagging pains cease when congestion is relieved

Remember: most of the pain and inflammation of rheumatism comes from congestion. Start the congested blood flowing freely and even chronic, nagging pains cease. Sloan's does just this—it penetrates without rubbing—straight to the congested spot. It warms up, stimulates the circulation. It stops pain, brings quick, comforting relief. Many uses—all in one 35c bottle.

Keep Sloan's handy. It relieves pain of all aching muscles. Relaxes and eases stiff, aching backs. Kicks nerve pain, rheumatism, out of the system. Relieves all cases of congestion.

Sloan's Liniment—kills pain!

At the first sign of skin trouble apply Resinol

It improves a poor complexion and preserves a good one, so that you need no artificial means to enhance your attractiveness.

At the first sign of skin irritation, of a blotch or a pimple, itching or burning, apply Resinol Ointment, and see it doesn't bring prompt relief. It contains harmless, soothing balsams, and is so nearly flesh colored that it may be used on exposed surfaces without attracting undue attention.

M'Lendon BACK ON JOB, RESIGNS

Long Beach Chief Restored by City Manager

Says He Desires Year's Leave of Absence

Successor May Be Man from Outside

By a "Times" Staff Correspondent
LONG BEACH, Nov. 15.—Chief of Police Ben W. McLeod, who was suspended a week ago by City Manager E. Hewes, was reinstated this morning and immediately resigned the office, resuming his former status as a detective. He will make immediate application to the City Council for a year's leave of absence.

In resigning, Chief McLeod, Mr. Hewes both agreed and apologized him and likewise rapped District Atty. Woolwine. He declared that the chief was guilty of a serious error in following out Mr. Woolwine's request that he incur warrants for the arrest of former Police Chiefs James W. Butler, and C. C. Cole and Steven Mitchell, all of whom are asserted to be identified with the Long Beach branch of the Ku Klux Klan.

AT POLITICAL MEETING
The arrests were made by Chief McLeod following a demonstration in the auditorium by Klansmen who arose in a body during Mr. Woolwine's political speech as a candidate for governor. The charges of creating a public disturbance were later dismissed. "In view of the fact that the political meeting was part of a bitter political campaign, and Mr. Woolwine was here as a candidate and not in an official capacity, I feel that both he and Chief McLeod acted in a hasty manner," said Mr. Hewes. "Mr. McLeod has been in the service of the city for eleven years and during the last seventeen months of my incumbency I know he has worked night and day and has maintained a highly efficient police department. Such service should be recognized."

SUCCESSOR NOT KNOWN
Concerning the appointment of a successor to Chief McLeod, Manager Hewes declined to state who he had in mind, but indicated that the appointment of a new chief would be a temporary measure. It was intimated that a new chief would be sought from outside the Long Beach police department. A shake-up of the department was predicted.

McLeod said that if he was granted his request for a year's leave of absence he would devote most of the time to the study of law. He denied reports that he might join the District Attorney's staff of investigators.

TERMED MORON. WIFE CHARGES

Besides calling her a moron, Frederick L. Sims, secretary of the Near East Relief, choked, beat and threatened to kill his wife, Lynda Hall Sims, she asserts in a suit for divorce filed yesterday.

She charges that while they were out motoring one evening, he suddenly announced: "There will be another murder headline in the papers tomorrow morning, for I am going to finish you tonight!" He then accelerated the speed of the car to a dangerously high rate, she declares, rushing to the foot of the hill at the head of Vermont avenue, where he stopped and said: "This is where you get yours."

Mrs. Sims then states that she fainted, and when she recovered consciousness it was to find her husband choking her. She also says that she fainted five times that night as the result of his subsequent actions.

She asks \$250 a month for the support of herself and her two little daughters.

Throughout their married life, Mrs. Sims charges that her husband referred to her as moron, declared she had the mentality of a moron and made similar statements to friends.

The Simses were married in 1905 and separated on the 14th inst. Attorney Edward Winterer represents Mrs. Sims.

COUPLE FIGHT FOR FILM DOG

The custody of the children is a bone of contention in many divorce suits, but in Judge Sumner's court yesterday the fight centered on Togo, a bulldog which, as an actor in motion pictures, draws down the stipend of \$10 per diem.

Mrs. Bertha A. Cox, suing her husband, Thomas H. Cox, was awarded the custody of the permanent custody of the dog, the furnishings of the home and two automobiles, after she presented testimony asserting that her spouse was a "dance hall hound" who had other women friends.

Mrs. Cox left her husband, she declared when he told her to "look around and find the hole the carpenter left." She found it, and walked out of the house.

The chief asset of the couple was Togo, the cinema star, who was given to Mrs. Cox.

TOY ON BOOSTER TRIP FOR HIGHWAY

On his way to Salt Lake City, where he will conduct a meeting to boost the Transcontinental Victory Highway, Harvey M. Toy of San Francisco, was in Los Angeles yesterday.

REPUDIATE FILM "TEACHER"

Agency Heads Announce Closing of Office Because of Make-up Operator's Connection

Announcing their immediate discontinuance of operation of the Classic Film Agency because of its connection with the name of Michael J. Lynch, Nov. 15.—Chief of Police Ben W. McLeod, who was suspended a week ago by City Manager E. Hewes, was reinstated this morning and immediately resigned the office, resuming his former status as a detective. He will make immediate application to the City Council for a year's leave of absence.

"Los Angeles Times, city: The other afternoon I signed a statement that my agency had nothing to do with Bud Harris or Mr. Lynch's school."

"At the time I was quite excited, as I did not want a repetition of a similar write-up by 'Camera,' that was later rectified. I am building up a business and it is very hard to get new accounts the way it is without being dragged into the school scandal."

"I want to explain the whole situation to you from the beginning and after that I am going to attach the true position of the agency with the producer."

"After six months with the distributor firm I felt that I was not fitted for the work, so parted with this firm with the best of feeling and on my part of the work I did not pursue until I met Lynch, who told me that he had nobody running the agency, and that if I wanted to take it over he would pay all the overhead and I could keep the profits of the business."

"He told me that he was running a make-up school, but the school would not have anything to do with the agency."

"The school license was in the name of Michael J. Lynch, and the agency in the name of Katherine Lynch."

"I have never charged a fee for registration, not have I ever advised any person to attend his school. If Mr. Lynch or Mr. Harris ever used the name of my agency or said by word or card that they were affiliated with the agency, they did so without my knowledge."

"I did tell Mr. Lynch that if ever a set came up that regular registered people would not work for the price offered by the producing companies, that I would use a few of his pupils, but I have used twenty of his pupils since I took over the management of the office. I put Gerald Kline and R. D. Saunders, former cast director for the Hollywood Studios, as casting directors of this office."

"Long before this I negotiated with Mrs. Billie Hodges, formerly with the Metro casting office, but at the time the business would not stand the scrutiny of her services. I also appealed to Nan Collins, casting director of the United Studios, to help me out, and she showed me capable people to me; but as I said before, the funds for their service were not there. The two pupils with me now are working on a partnership basis."

IN PARTNERSHIP

"Before they came with me I was at the studio during the day and did my casting at the office at night, so during the day I never knew what was taking place at the office."

"Lynch told me as late as last Friday that the pupils were not using my agency to get prospective pupils, but Saturday a lady came into my office and said this was where she could learn acting."

"I told her it was not."

"I waited for her in the hall and when she came out she had a card in her hand. I asked her if I could see it. On it was printed, 'L. A. Academy of Dramatic Art,' something in effect, and below printed, 'Affiliated with Classic Film Actors' Agency.'"

"I went into his office and asked what the idea was, and the young man informed me that he was never told not to use the card."

"It is my purpose in writing this letter to show you the difference between an agency and a school. There are three bona-fide agencies for casting in the city; namely, the Service Bureau, that belongs to the Producers Association; Screen Talent, owned by Dave Abin, and the Classic, being run under my management. There are, perhaps, one or two others, but I cannot vouch for them, as I have never run across them as competition at the studio."

"I do not think your articles should be run under the name of agencies, as there are very reputable agencies in the city, bits and leads, and also handle stars. Also Service Bureau and Screen Talent are recognized by the producers."

"Those agencies that are doing wrong should be the one pointed out, and if my agency is deserving of a write-up, then put the blame where it belongs, but, as I said before, it is not the agencies but the schools that are to blame."

"Mr. Lynch himself told your reporter that his school had nothing to do with the agency, but an account of Mr. Lynch promising pupils work through this agency I am severing my connections, and will continue to operate in other offices under a new license."

"Your stories, as usual, were interesting, but I will not endeavor to go after the sore."

DRUGGIST TO WED
Alan O. Stearns of 721 Oxford Drive, Beverly Hills, and Miss Corine M. Booth of Pasadena will be married next Tuesday, the 21st inst. It was learned yesterday that Stearns is in the wholesale drug business. After their marriage Mr. and Mrs. Stearns will live at the Hotel Wolverine, in Detroit.

CLUB ANNIVERSARY IS CELEBRATED

Glendale Women Commemorate Incorporation of Civic Organization

TERRIFIED BY BLACK HAND

(Continued from First Page.)

That night kept the appointment accompanied by two police officers. The three men went into the park and left Mrs. Freer seated in an automobile. When they returned after searching the park they found Mrs. Freer fainting in the rear seat of the machine. She had been given a number of men had rushed the machine and grabbed her by the throat demanding money and stating that they would "get" her husband.

According to the information now in the hands of the police Mr. Freer has received in all five letters, all assigned in which money has been demanded. Since Mrs. Freer received the first letter she has been attacked several times by mysterious strangers, robbed once and threatened a number of times. The last letter was received by Mr. Freer last Monday morning.

The fourteenth anniversary of the incorporation as a club, members of the music section of the Glendale Tuesday Afternoon Club yesterday afternoon, presented "In an Old-Fashioned Garden."

The play also marked the laying of the corner-stone for the new clubhouse which is now under course of construction.

Mrs. Warren Roberts, curator of the music section of the club, was in charge of the program.

The Glendale Tuesday Afternoon Club is a women's organization and has the names of 680 active members on its roster. The club was organized in 1898 by a group of eighteen women who were anxious

to take part in the civic betterment of the town. It was then, however, until 1903 that the club was incorporated and given its charter.

Copies of the year book by the corner of Central avenue and Lexington Drive. It will cost approximately \$75.00.

Mrs. Sydney Thomas Eddy, vice-president at large of the California Federation of Women's Clubs, was the honor guest and principal speaker of the day. Mrs. Daniel Campbell, the club president, presided at the laying of the corner-stone.

Rev. C. M. Caldwell pronounced the invocation and Mrs. Greely Kolls of Los Angeles sang. Copies of the year book by the corner of Central avenue and Lexington Drive. It will cost approximately \$75.00.
